BEAUTY! That intangible quality which reflects exquisite grace and excellence, exciting at first a feeling of delight and often resulting in a mood of reverence. Beauty! ... which is ours to enjoy, for it is everywhere about us.

The Arts Doorway

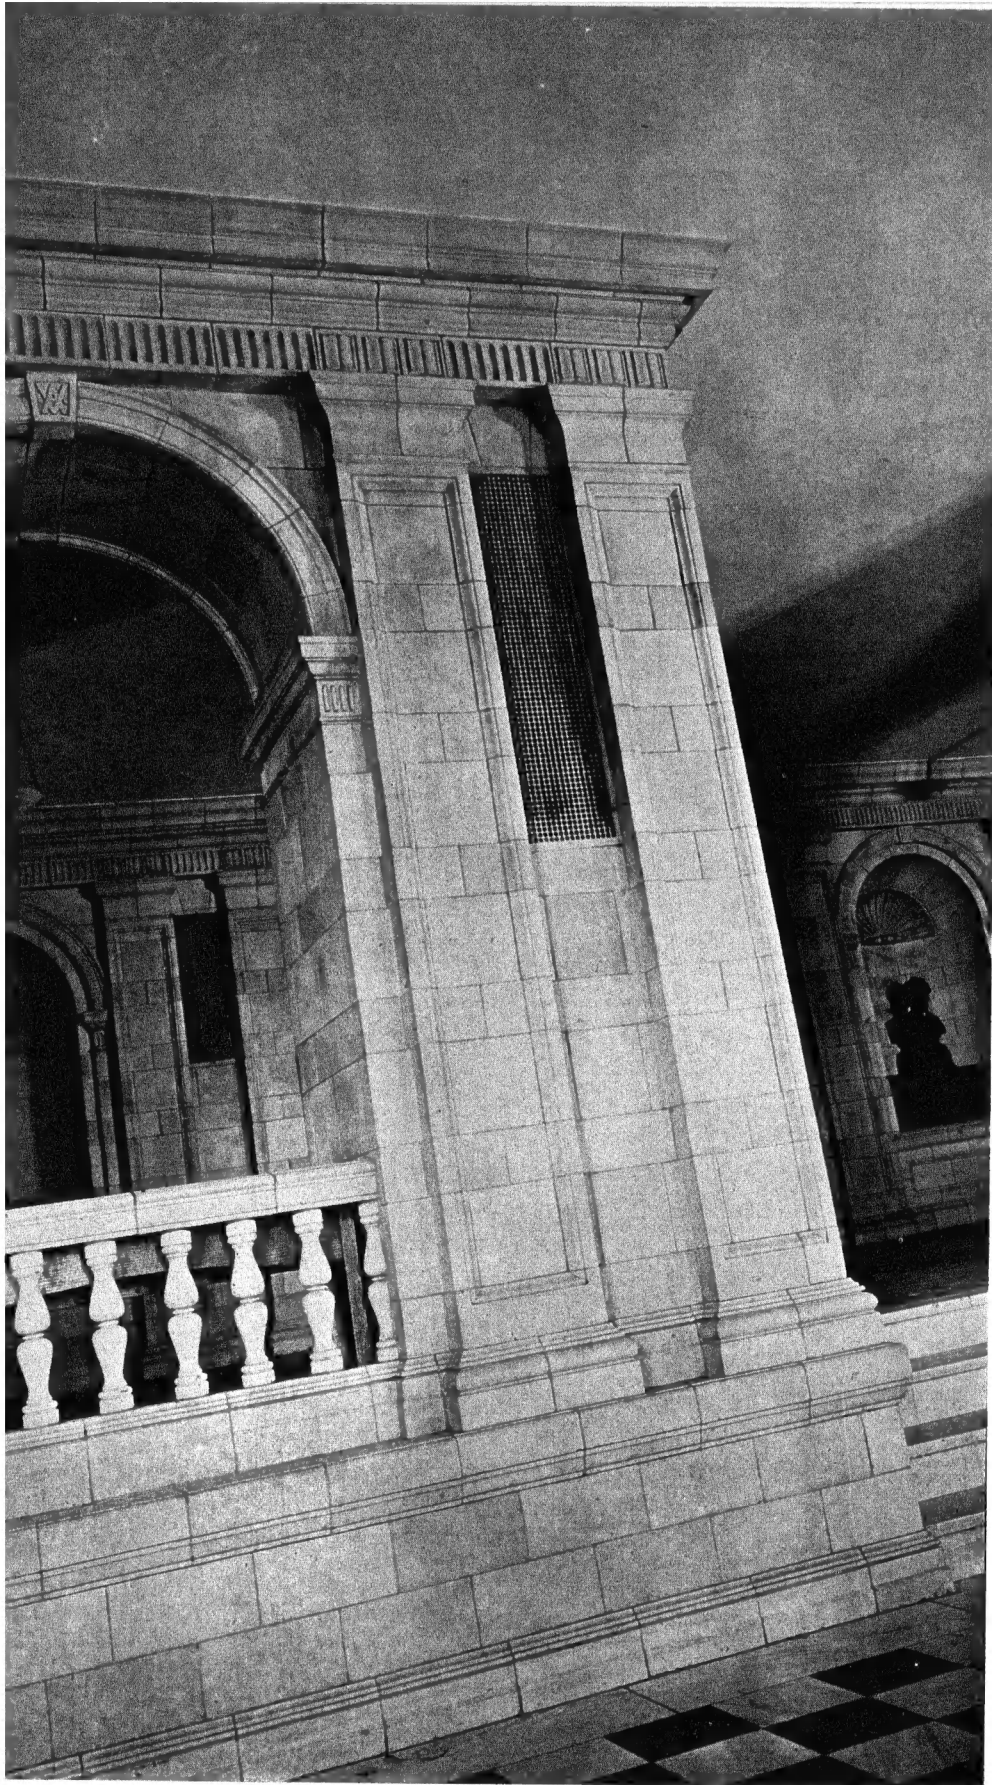

Foreword

THROUGHOUT this Seventeenth Volume of *Evergreen and Gold*, it has been the endeavour of the Editors to portray in a cloak of beauty a panoramic vista of Campus Life. We proffer it to the students of the University of Alberta in the hope that they may find between its covers a familiar face, a familiar scene, which in subsequent years will arouse in their memories beauty-stained snatches of a cherished experience...a year at "Alberta."

In Memoriam

◆

Song from "Cymbeline"

◆

Fear no more the heat o' the sun,
Nor the furious winter's rages;
Thou thy worldly task hast done,
Home art gone and ta'en thy wages;
Golden lads and girls all must,
As chimney-sweepers, come to dust.

Fear no more the frown o' the great;
Thou art past the tyrant's stroke;
Care no more to clothe and eat;
To thee the reed is as the oak:
The sceptre, learning, physic must
All follow this and come to dust.

Fear no more the lightning-flash
Nor the all-dreaded thunder stone;
Fear not slander, censure rash;
Thou hast finished joy and moan:
All lovers young, all lovers must
Consign to thee and come to dust.

No exorciser harm thee!
Nor no witchcraft charm thee!
Ghost unlaid forbear thee!
Nothing ill come near thee!
Quiet consummation have;
And renowned be thy grave!

President of the University of Alberta

THE INSTALLATION CEREMONY, November 5, 1936

PRESIDENT'S MESSAGE

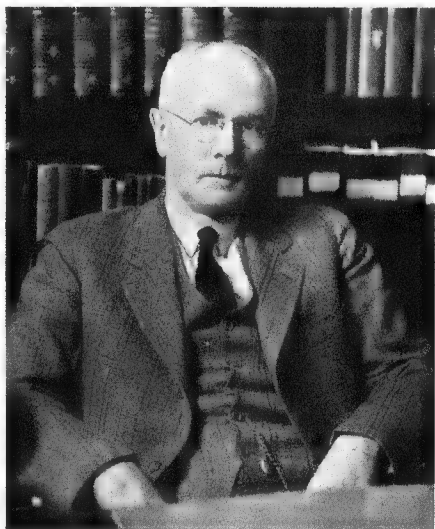

USUALLY, I feel sure, it is better to look forward rather than backward. The past, which seems to close in behind us, we cannot do much with, but the future is a land of surprise and adventure. Anything may happen in that youthful, undiscovered country that lies before, and we must keep our eyes trained on it as day by day it crowds upon us.

We are living in an evolutionary—indeed a revolutionary epoch. The ancient standards of conduct seem to have sagged and loosened and many people, old as well as young, miss the guiding lines to which they used to cling and find themselves confused and discouraged and in danger of moral collapse.

But in the present welter of ideas the very insecurity of the world today offers the young man—and woman—of trained mind and disciplined character such a field of work and opportunity as occurs only rarely in history. More and more the work of the world calls for the man and woman of special training such as the University alone can produce. But along with this technical *expertise* must go that integrity of character and selflessness of purpose which, in the end, give meaning and worth to the whole business of human life.

Your Alma Mater watches you with solicitude and confidence as you pass outward through her gates to take your places in the citizenship of our country.

W. A. R. KERR.

FACULTY OF AGRICULTURE

DEAN E. A. HOWES

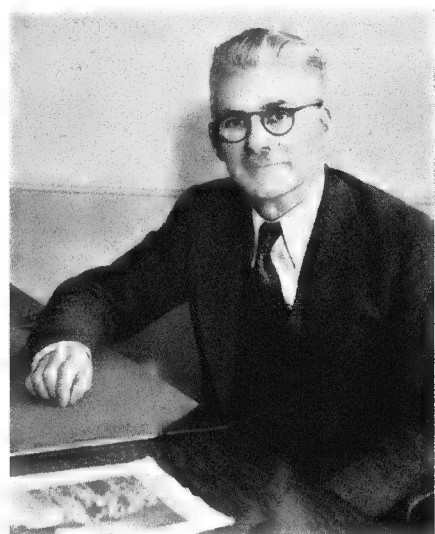

- The Faculty of Agriculture was established at the University of Alberta in May, 1915. Research and experiment are carried on in the schools of Animal Husbandry, Dairying, Field Crops, and Soils. The department is headed by Dean E. A. Howes, a man keenly interested in the future of Agriculture in this province.

FACULTY OF APPLIED SCIENCE

DEAN R. S. L. WILSON

- Originally a part of the Faculty of Arts and Sciences, the Faculty of Applied Science was established as a separate department in 1913. This department conducts courses leading to degrees in Chemistry, Civil Engineering, Electricity, Mining and Metallurgy. Dean R. S. L. Wilson has headed the faculty since 1929.

FACULTY OF ARTS AND SCIENCES

DEAN W. H. ALEXANDER

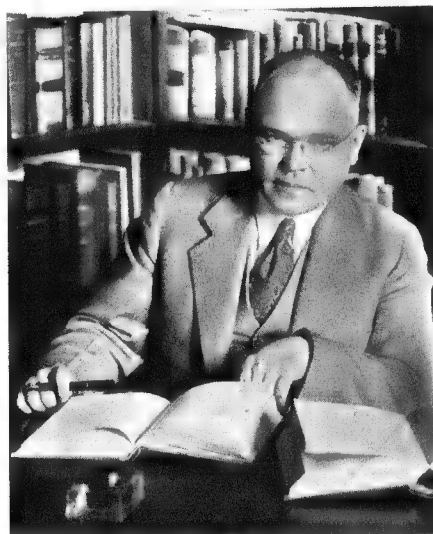

- In 1908 the Faculty of Arts and Sciences was the University. At various intervals since that time it has fostered and established the schools now existing.

Dr. Alexander was appointed Dean of the Faculty in 1936, succeeding Dr. W. A. R. Kerr, now president of the University.

FACULTY OF LAW

DEAN J. A. WEIR, K.C.

- The Faculty of Law was instituted in 1919, adopting the case-system of teaching, and developing one of the leading law schools in Canada. Dean J. A. Weir is head of the department.

FACULTY OF MEDICINE

DEAN A. C. RANKIN

- In 1924 a complete five-year course leading to a degree in medicine, was established in the University. Dentistry, Pharmacy and the School of Nursing have at various times become separate entities from the department. Dr. A. C. Rankin is Dean of the Faculty.

DEAN OF WOMEN

MISS F. E. DODD

- Miss Florence E. Dodd, Dean of Women, ■ lady with a keen insight and understanding, and a true friend, is known by all as the finest lady on our campus. With her encouragement, progressive co-operation and friendliness has continued between the women students and all University organizations.

THE REGISTRAR

MR. A. E. OTTEWELL

- Chief Executive in the office of files and stenographers is Professor A. E. Ottewell, Registrar of the University. Here the records of thousands of students are kept, and here, contact is maintained with the graduates of the University.

THE BURSAR

MR. A. WEST

- Mr. A. West for the past number of years has been Bursar of the University. His are the problems of finance, interest cuts, government grants, and room and board.

THE PROVOST

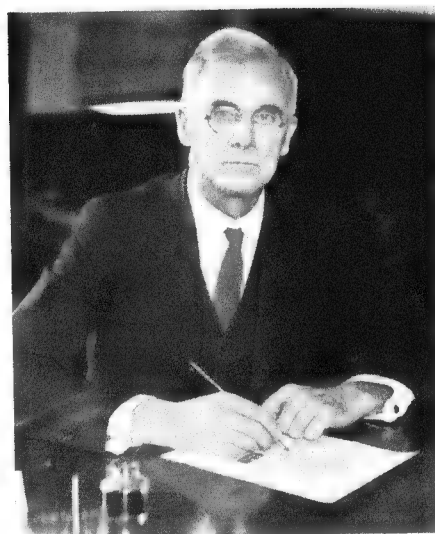

DR. J. M. MacEACHRAN

- Since 1914, Dr. J. M. MacEachran has been Provost of the University. He is responsible for the discipline and general supervision of the conduct and welfare of the students. Dr. MacEachran's primary duty is to act as a mediator between the students and administrators of the University.

ST. STEPHEN'S COLLEGE

DR. A. S. TUTTLE

- Principal of St. Stephen's College and Instructor in Theology is Dr. A. S. Tuttle. Dr. Tuttle last year received the University's honorary degree of Doctor of Laws.

ST. JOSEPH'S COLLEGE

BROTHER MEMORIAN

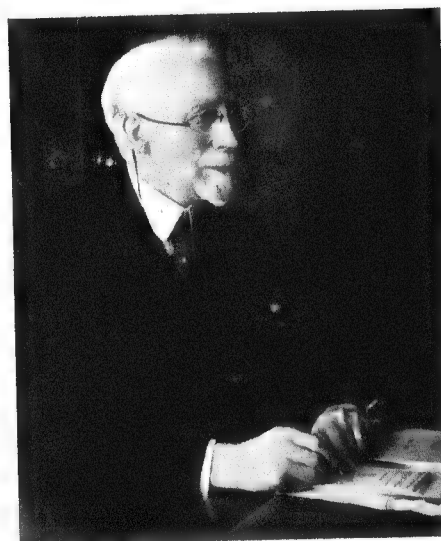

- Brother Memorian—better known as "Brother Mem"—is Rector of St. Joseph's College. Truly may we call him a Gentleman.

MOUNT ROYAL COLLEGE

REV. DR. G. W. KERBY

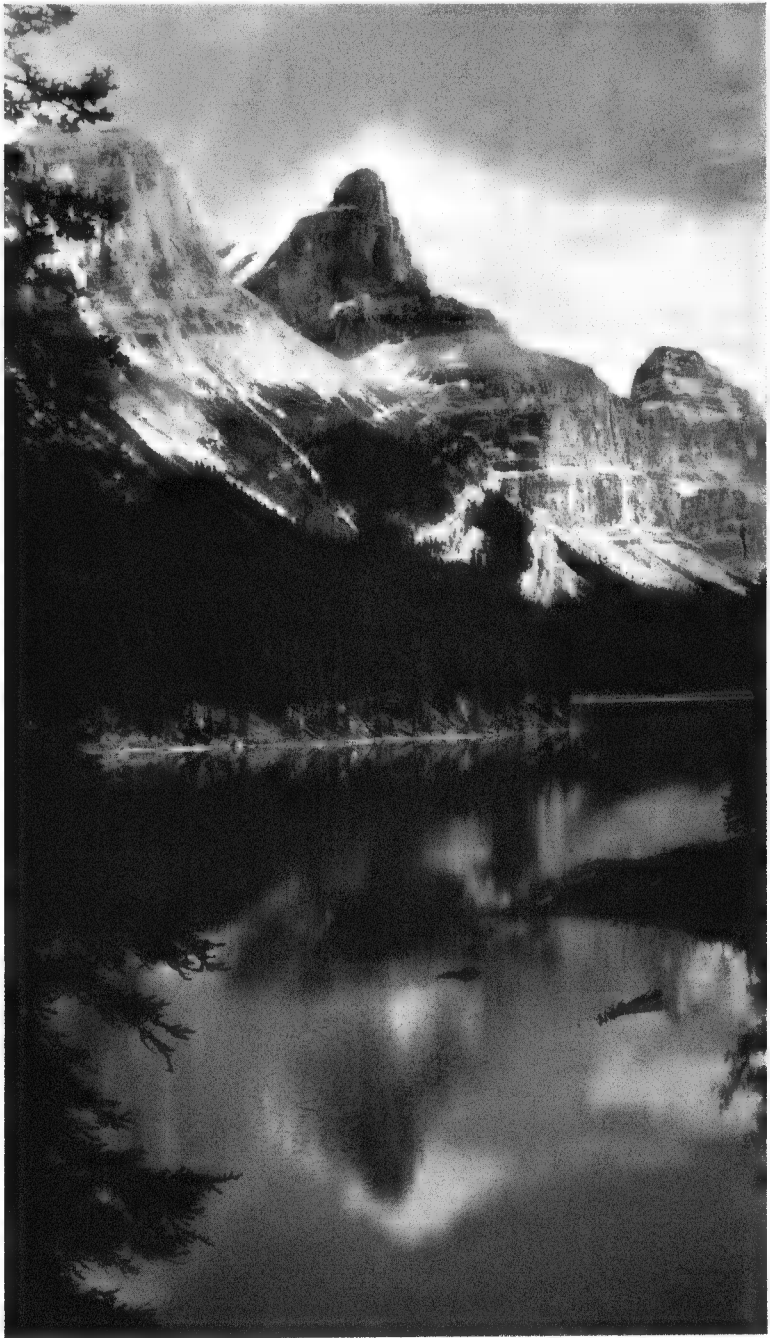

- Mount Royal College has been affiliated with the University as a junior college since 1931. It offers instruction in the first and second years of university courses leading to the degrees of B.A. and B.Sc. in Arts, as well as cultural courses in speech, drama and music.

Students

Seniors

HISTORY OF CLASS '37

FOUR years have come and gone since first our steps strayed within these halls—four years of varied activity, of study, pleasure, friendships gained, hopes fulfilled and some disappointments. Now, as the curtain is about to descend upon the university career of class '37, we look back with a feeling of appreciation for our brief stay here. The university has left its stamp on each individual character. Yet also, during these past four years, we have contributed much to the life of our Alma Mater. It is the chronicler's privilege to pay tribute to the achievements of class '37, and to define the part it played in the development of the university as a whole.

We arrived in the fall of '33—a record breaking number of shy young hopefuls, the first to be denied the doubtful privilege of initiation. Thereupon began the dismal forebodings of pessimistic upper-classmen, who trembled for the fate of "this our university" in the hands of those who had not been uplifted by the moral and physical discipline of sophomore tyranny. Sophomores, however, responded nobly, and, burying deep the proverbial hatchet along with their grief for lost hopes of revenge, extended a calm and cordial welcome to the aspiring freshmen. We believe we have proved ourselves worthy of their trust. From the outset, class '37 has manifested an enthusiastic class loyalty, and established as fine a standard of achievement as any of its predecessors.

With characteristic enthusiasm the freshmen of 1933 entered all branches of campus activity—literary, scholastic and athletic. In the latter field particularly, freshmen were prominent and gained considerable distinction in rugby, hockey and basketball.

The sophomores of '34-'35 cheerily assumed their responsibilities in ushering in yet another class of newcomers. Their reception to freshmen—the so-called Balloon Formal, was a noteworthy achievement. The class entry in the Inter-Year Play competition won favorable comment, while the interest in sport was not allowed to wane.

In the Junior Year, the scope of activity of class '37 continued its ever-widening course. We find our classmates in many an executive position of importance, while the Gateway and Evergreen and Gold received valuable service from Junior ranks. The Junior Prom was an outstanding tribute to the originality of class '37. The unusual motif of darkest Africa provided an atmosphere that will live long in the memories of our students. Class '37 has continued to reveal its flair for social triumphs by the re-introduction this year of the Mid-winter, in the novel form of a cabaret. A fine dramatic talent has been by no means wanting among our classmates. Awards for the best actor and actresses went to the cast of the Junior play in 1936, while one of the triumphs of the senior term was the winning of the coveted dramatic shield.

And now the Senior year marks the climax in the history of achievement. It has been a fitting finale to each individual's striving to attain a well-balanced, independent personality. As a class we feel we have learned much from our association together—lessons of loyalty, truth and mutual encouragement in our efforts toward a common purpose. We have been schooled in habits of intellectual honesty and straight thinking. We sincerely hope that the spirit of *Quaecumque Vera* will continue to guide our thought and action. The chronicler's sketch is at best inadequate, for the part we have played is more readily sensed than analyzed. But we leave behind us a more permanent witness in the institutions and traditions we have helped to mould. The time has come for us to turn our steps along new individual and widely divergent paths. This phase of our life is closed—on to the next.

"What is to come we know not. But we know that what has been was good."

MARY FAUNT

VALEDICTORY

In a short time we of class '37 shall be widely scattered. As we adapt ourselves to life in various communities our university associations will naturally recede into the background of our lives. I think it timely for us to ask ourselves, "What then will our university training mean to us?"

Several years ago when, as freshmen, we entered these halls of learning we found ourselves in a new social community. As such, our Alma Mater has played a very important part in the shaping of our character and of our future. This is so, quite apart from the fact that some enterprising students have already laid the foundations for matrimonial careers. For in our concourse with fellow students in residence and through the various campus activities, the rough edges of our personalities have been smoothed out. Many a valuable lesson in co-operation has been learned on the playing ground where team work counts, and we had to submerge our individual desires for the success of the team. Some have gained qualities of leadership through participation in competitive sports. Others have gained greater self-assurance by strutting behind the foot-lights, or by confronting worthy opponents on the debating platform. Nor must we forget lessons in tolerant thinking learned in discussion groups or in those argumentative sessions, known by the name of a common farm animal, and which last on and on far into the night! Without realizing it, we have all broadened the basis of our personalities through friendly contacts on the campus.

To a great many of us the university has been a training school for our future professional or vocational careers. We have received little better than an indispensable minimum of knowledge and practical experience but, what is more, we have caught a glimpse of the great learning and skill to be acquired in any branch of the work we may do.

Let us hope that there will be a few in our class who will attain high distinction in some field of endeavour. They will help us to bring due credit to our Alma Mater for the training she has given us.

To many of us our university will be remembered chiefly because it guided us in the search after truth for its own sake. We have sat at the feet of the learned. We have labored long in the laboratories in preparation for the examinations. We have crammed for hours, marshalling many facts; sometimes we have been lost in details. In history and literature we have followed the blundering course of man through obstacles created by his own blind passions. We have seen civilization marching on, with faltering step, toward higher and more integrated forms. In science we have been shown the value of keeping our thought linked closely to the simplest and surest forms of reality known to our senses. Having learned to control our thinking by reality, we are in a position to control reality by the product of our mind. The scientific way of thought will serve us in good stead in helping us to solve the everyday problems which we shall meet in our new surroundings. In these days, when selfish individualism and narrow nationalism have brought the world to the verge of a new catastrophe, there is ample need for action directed by clear, straight, scientific thinking. Such thinking based on our knowledge of the fundamental drives, instincts and emotions of man, will see the significance of historical trends and take account of social and economic principles. It will lead us to a more coherent understanding of the world about us and aid us in building a better society in which to live.

Although we are about to leave the confines of our university we shall never be without the wealth of experience and knowledge which she has given us, and we shall always remember the precept in her motto and search after "whatsoever things are true".

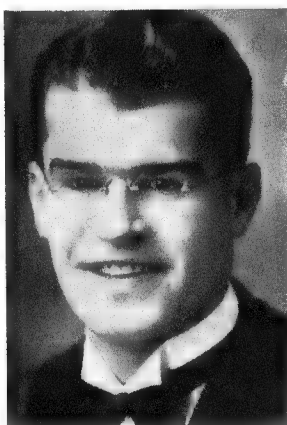

M. J. TUTTLE.

SENIOR

BEFORE the doors clang shut behind another retiring senior class, let us cast a brief glance in retrospect.

This has been to us the most memorable of our eventful years at Varsity. We have upheld our honor in sport. The much-prized Dramatic Shield is a witness to the dramatic talent of Seniors. The Midwinter, in novel cabaret style, was restored to the social calendar through the efforts of class '37, and was judged the sportiest dance of the season.

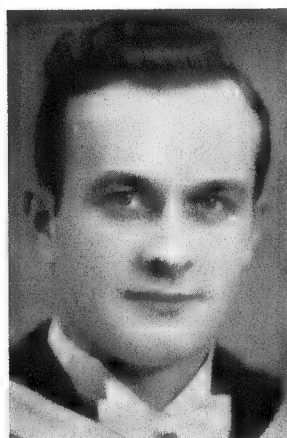

CLASS

MAY we here, also, pay tribute to our honorary president, Mr. F. G. Winspear, who has been guide, philosopher and friend to the graduating class during the past year.

It is with a feeling of reluctance that we leave behind our university life—with its treasure of knowledge, and memories of happy associations. Yet, with the proverbial curiosity and confidence of youth, we advance to new and unfamiliar spheres of action. It is there that we must make trial of ourselves, and there, may we prove worthy of our Alma Mater.

JUNIOR CLASS

AS the session 1936-37 moves slowly to its close, we of class '38 look back with pride on our achievements during the past year and hope that all the years to come will be as fruitful and enjoyable to all of us as this has been.

No field of University activity—curricular or extra curricular—was left untilled by the active minds and never-tiring hands of class '38, and while all our endeavours did not yield as bountiful a harvest as we had hoped for, still our efforts were fully repaid in the doing of the deed.

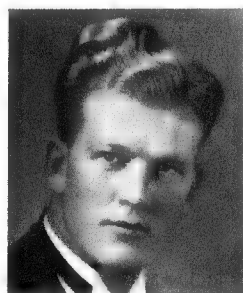

On December 4, 1936, we guided the good ship "Romance" over melody-ridden and moon-swept waters on one of the most enjoyable trips one could wish for.

Although our entry in the Inter-Year Play Competition—"King's Son, Churl's Son"—did not capture the coveted award, still it was well put on, and we consider it "tops" for all round entertainment.

And so we could go on for pages describing the accomplishments of our class, but let it suffice to say: "We have done our part."

And now comes a sad task for some of us whose courses are too long to permit us to finish with you next year, but we leave with you a heart-felt message:

"Keep it up in your Senior Year, Class '38! Absent in body but ever present in spirit we face the future side by side with you, happy in the thought that we have been part of you for the first three years of our University life, and wish you all the good fortune you deserve in the future."

SOPHOMORE CLASS

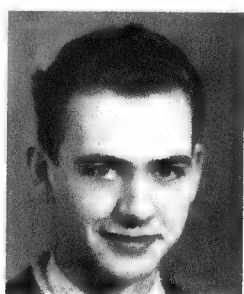

FOR most of us the halfway mark has now been passed. Two years of toil interwoven with play, years of happiness marred for a few with disappointments and failures. Nor was our second year inferior to our first, despite our auspicious beginning. In our haste to enter into the world of affairs, we seldom pause to think of our good fortune, but some day we will remember these years with satisfaction and pride.

During the term Class '39 took a leading place in extra-curricular activities. Athletics, dramatics, debating and publications found enthusiastic Sophomores shaping their destinies. The reception to Freshmen and the entry in the Inter-Year Play Competition, "The Oak Settle", will long be remembered.

We trust that in the years to come our spirit of loyalty and enthusiasm will not only be maintained but will be strengthened.

FRESHMAN CLASS

CLASS '40 made its ostentatious debut during the hey-day of "Freshmen Week;" and following this educational introduction to campus customs, soon flowingly settled into the traces of university life to a point where it was difficult to distinguish the "Freshies" from the "Sophs"—to the feigned disgust of the aloof former.

With the sympathetic support of our Honorary President, Professor D. M. Healey, the class has made a name for itself in all fields of endeavour—athletics, dramatics and clubs. All extra-curricular activities were supported by zealous Freshmen. "The Potboiler," our entry in the Inter-Year Play Competition, received meritorious praise; in addition to which the Best Actor and Best Actress awards were conferred on members of the class.

A Sleigh Ride and Frolic, held soon after Christmas, was thoroughly enjoyed, and pleasant memories of our dance, the Freshman Reception, will linger with us.

With the completion of this satisfactory term—one of pleasurable inroads to a newer and brighter life, one of long-lasting friendships and of better things to come—may we simply and sincerely say, "Continued success, Class '40".

STUDENTS'

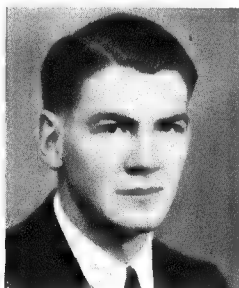

SINCE the inauguration of our present Student Governmental set-up, each year has brought with it new difficulties, and each year has left behind new solutions and new attitudes towards student life and student endeavours. Each succeeding Council strives to bring the existing form of Student Government closer to the ideal. Our Council has been no exception.

The year 1936-37 was ushered in by an honest endeavour on the part of the Council to make the Freshmen feel at home on the campus, to create a week of campus spirit, to formally introduce them in a rather informal manner.

Still another innovation was the introduction of a non-compulsory athletic card. The success of this has been two-fold—increased interest in athletics, and a simplification of student financing.

COUNCIL

ALTHOUGH the Council made no definite progress in the actual construction of the proposed Students' Union building, it was successful in securing several new sources of revenue for the "Building Reserve Fund". The Council feels that its successor can look forward to an increase of fifteen hundred dollars for the 1937-38 "Reserve Fund".

Like all Councils we have had our financial worries. However, the careful planning of the treasurer, together with an exceptionally successful year in the literary association, has at all times kept us within our budget.

During the year several constitutional amendments and new acts have been added to our constitution.

In closing, the Council trusts that its efforts have warranted the confidence placed in it by the student body.

ENFORCEMENT COMMITTEE

THE Constitutional Enforcement Committee, for the benefit of those not fully acquainted with its existence and general functions, was brought into being in the spring of 1934 through the medium of "The Enforcement Act".

The Committee is composed of a chairman and two other members, preferably senior students who hold no other offices in the Students' Union. These members are appointed by the Students' Council.

Primarily, the purpose of the Committee, as appears from its designation, is to deal with all matters involving the welfare and good government of the Students' Union by enforcing the provisions of its Constitution. In order that its decisions may be carried out, it has power to impose fines up to the sum of \$10.00, or to bar offenders from student activities or student offices.

A good many persons who have interested themselves in the Committee have been slightly dubious about its usefulness. They incline to think that it is merely another institution set up to further confuse an already complicated organization.

The Committee, however, may be justified by reference to that complicated organization. The officers of the various clubs under the Students' Council are authorized to control a part of the student funds. It is expedient that

there be somebody by whom these officers may be censured in case of laxity or inefficiency in carrying out their duties.

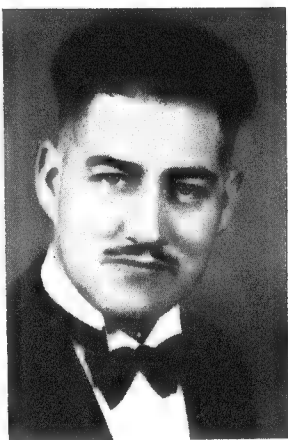

With this in mind the Committee, besides imposing penalties where it is deemed necessary, attempts to analyze the difficulties which confront the various officers of the Union and to bring them to the attention of the Students' Council, with suggestions as to remedies. By functioning on that basis the Committee is able to instruct as well as to enforce, and to ensure the least expensive and most efficient administration of Students' Union activities.

ST. JOSEPH'S HOUSE COMMITTEE

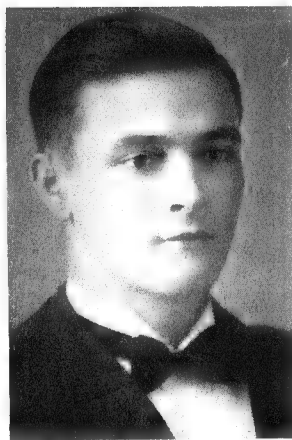

A SMALL representative group that has done much and is still doing much towards establishing and maintaining residence standards that are both safe and sane. Its methods are quiet and unobtrusive; but it gets results. Thanks to the Committee, those things that interfere unduly with a student's quietness and comfort are reduced to a minimum; thanks also to its moderating influence and timely firmness, a small number of disciplinary measures are carefully enforced. That it makes wise use of the authority vested in it is shown by the fact that its rulings are seldom, if ever, questioned. All this has been made possible by the intelligent co-operation of those who put these men in office—a fair example of that much-needed harmony between governing and governed.

THE WAUNEITA SOCIETY

THIS year marks the Silver Anniversary of the Wauneita Society, twenty-five years of steady growth since those first few women students pledged their loyalty to each other.

The Reception to Men, the first formal of the year, was as usual a very great success.

The tribe was fortunate indeed in having as its Honorary President Mrs. W. A. R. Kerr, who has always been one of its strongest supporters. Many thanks are due her for her gift of a chair for the Upper Wauneita Room.

The annual banquet had a record attendance, and the anniversary was celebrated with a birthday cake, of which the first piece went to the first president, Mrs. Russell.

The banquet ended, the quarter century mark has passed, and Wauneita still goes on.

THE COVERED RINK

THE covered University Rink has again this term taken an active part in the student life of the campus—to many students it might almost be called a winter home. Mild weather early in the season resulted in a later start than in former years, but from December on almost ideal skating weather persisted and the rink was busy every day.

Skating has proven even more popular this season, as all winter long a steady stream of enthusiastic skaters have been wending their way "rinkwards". We were fortunate in having an excellent student band playing one night each week to add to the skaters' enjoyment.

Hockey, that ever popular winter sport, had an active season; the senior team, playing in the Intermediate League, kept the spectators on their toes most of the winter, and finished their activities with a successful Intercollegiate series. Inter-faculty hockey, operating two leagues, held scheduled games almost every day, and completed their series with first-class playoffs. Table hockey, the Engineers' Worm League and Faculty teams all contributed their share to an interesting year.

Thus the winter season closed, leaving with us many happy memories of pleasant and healthful evenings spent at the rink.

PRES. WOMEN'S ATHLETICS

ST. STEPHEN'S STUDENTS' COUNCIL

THE rather heterogeneous group of eighty men (representative of all the faculties and schools on the campus) which composes the student body of St. Stephen's College has become homogeneous through its loyalty to the traditions of fun, good fellowship, good sportsmanship and good scholarship which go back to the founding of the college in 1910. So real has this unity become that both the House Committee and the Students' Council have received the heartiest co-operation.

This lesser allegiance has not detracted from the larger loyalty to the University, for there is scarcely a branch of undergraduate activity which has not some adherents in St. Stephen's.

A wide variety of social, literary and athletic activities, accompanied by an evening vesper service have stimulated the warm friendliness which is characteristic of this college.

HOUSE COMMITTEE

THE House Committee brings to a close another year of two-fold activity—disciplinary and social. It has been a singularly uneventful year of student discipline. No crises have arisen to bring the august body into undue prominence, but it has been functioning none the less efficiently, if quietly.

The Committee's task has been made lighter by the sportsmanlike attitude of the students themselves. True, lovers of aquatic sports have sometimes let their zeal carry them too far—in Assiniboia for instance—while Pembina has had to bear the brunt of two celebrated hunger marches. But the students on such occasions have shown themselves quite amicable to treatment, with the result that a fine time was had by all.

House dances have never been so well attended. The Christmas banquet was as usual the crowning event of the term in residence.

And, last but not least, to Miss Dodd, Dr. MacEachran and Mr. Jones, the House Committee extends its sincere thanks for their generous assistance throughout the term.

BOARD OF PUBLICATIONS

THE Publications Board is a recent addition to the organization of the Students' Union. The purpose of this Board is to exercise a direct supervision over the policies and management of the Gateway, the Evergreen and Gold, and the Students' Handbook. The Board in turn is directly responsible to the Council.

In this, the first year of its existence, the Board has attempted to act carefully in order to ascertain its most useful sphere of operation. There has been very little interference on the part of this body with the affairs of any of the publications under its control, except in cases of emergency.

It has been the practice of the Board to consider any matters, concerning the publications, which would ordinarily be discussed by Council. After the question has been thoroughly considered by the publications body, a recommendation is forwarded to the Students' Council.

Thus the Publications Board gives the Council a more direct control over the various publications. At the same time, the work and discussion necessary in that already overworked body are obviated. It is to be hoped that in future years, this Publications Committee will increase in usefulness as it becomes apparent what additional departments may be brought under its guiding jurisdiction.

WOMEN'S DISCIPLINARY COMMITTEE

THE purpose of the Women's Disciplinary Committee is to maintain a standard of conduct among the women students that will reflect only credit on our University.

The Committee consists of five members, the chairman, Anathalie Heath; the secretary, Grace Hope; and the executive, Lenore Costello, Mary Faunt and Eleanor Aiello.

To aid the Committee in carrying out its purpose, it has passed rules to which women students must adhere and which the Committee has power to enforce. These rules are posted in the Upper and Lower Wauneita rooms, in the Women's Room in the Medical Building and in Pembina Hall. A woman student who violates these rules is sent one warning, and if she fails to heed the warning she is fined a sum fixed by the Committee.

THE STUDENTS' HANDBOOK

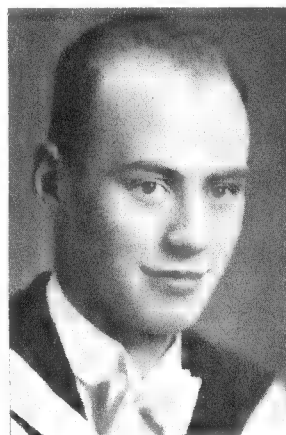

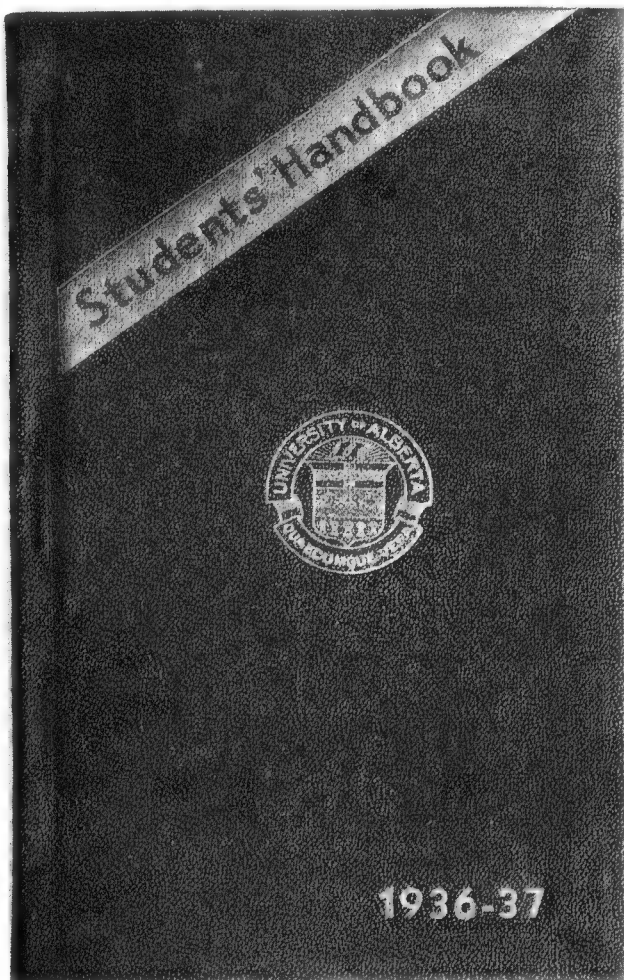

MUCH shoe leather worn out on sun-blistered sidewalks by an advertising salesman; more midnight oil burned by a writer and no end of hair torn out by a director—and all to what avail?—Another Students' Handbook, new in more ways than one.

More students read the Handbook during 1936-37 than ever before. This chiefly because of the increased enrolment at the University, and new and added features in the book.

The outstanding innovations of the staff were two in number: firstly, the new cover which was characterized by the gold band across the corner, and secondly, the amusing and satirical notes on the various campus clubs.

The staff attempted throughout the book to stimulate enthusiasm in all branches of student activity in order that every student might reap the greatest benefit from his student days at this University.

In all sections the "Freshman's Bible" attempted to follow the traditions of the Students' Union.

THE ALBERTA LAW QUARTERLY

THE Alberta Law Quarterly, now in its third year, was the first professional periodical to be published by a Canadian Law School. The aim and purpose of this publication is (1) to train the students of the University of Alberta in careful and scholarly analysis and statement of legal principles; and (2) to provide a forum in which the graduates of the University and others may express their views on matters of importance to the legal profession. (3) To maintain the bonds of interest between the University and its graduates after graduation.

Each issue contains a leading article by a judge or prominent lawyer, and a varying number of short analyses of recent cases written by students.

AND GOLD

ONE year ago the Evergreen and Gold was acclaimed the finest University year book in Canada and one of the best on the continent.

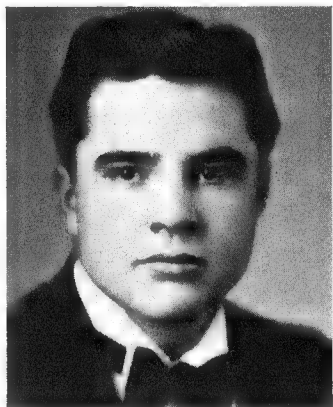

This is a tribute that has been worked for and earned. It is a compliment to the University and to the students, and we are justly proud.

This is a book of students, friends and comrades. It is their book, their classes, clubs, and sports. They have designed and published it. Theirs is the creation and the honor, theirs is this book. A product of a complete co-operation between students, a University, engravers and printers, it is a photographic memoir of student life and activity, the result of an aim to publish Canada's finest year book.

GATEWAY

PRESENTING a completely new appearance after twenty-six years of publication, the Gateway this year has taken its place in the van of college newspapers of North America. Ranked by several eastern Canadian publications as "the outstanding Canadian university journal", the Gateway at the beginning of the year adopted a completely new style of make-up closely resembling that used on several metropolitan newspapers. A larger size of newsprint was used than had been the case previously.

As a direct result of efficient advertising and business management, greatest advertising lineage in the history of the paper was carried. On several occasions, the paper ran to 12 and 14 pages, printed in two sections, so great was the volume of advertising.

The photogravure edition featuring football early in the fall was a triumph in pictorial journalism. News pictures of every important campus happening were carried. Several special editions appeared during the course of the year including a Christmas edition unrivalled elsewhere in Canada.

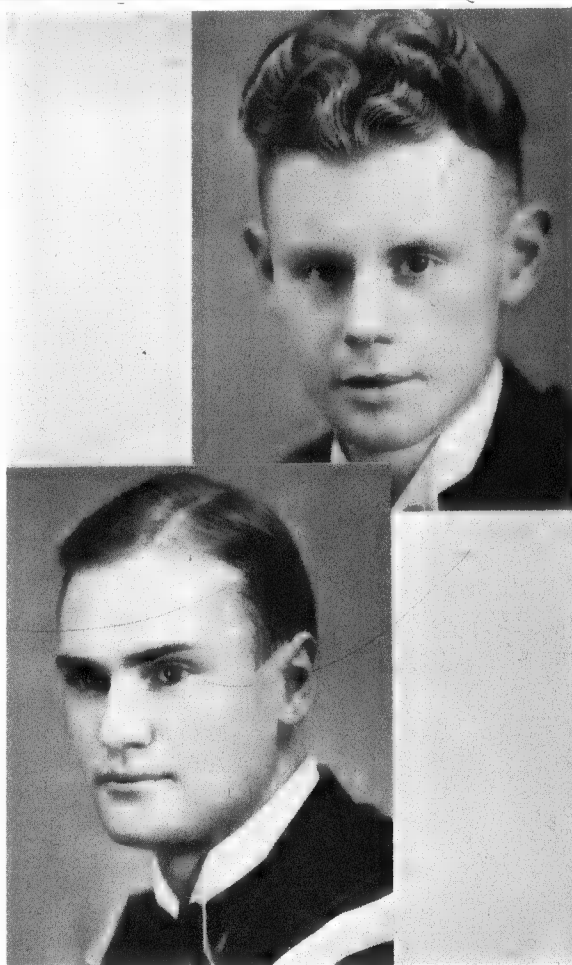

"Extra" editions announcing the appointment of Dr. Kerr to the presidency "hit the campus" a few minutes after the announcement of the selection was made by the provincial government. The feat was a scoop over the first morning newspaper accounts of the story by over fourteen hours.

News coverage of the campus—both in news and news features—was unequalled. Efficient staffs "put the paper to bed" on time each edition. The sport section received favorable comment from all over Canada.

The Gateway also conducted a weekly news broadcast over the lines of the Alberta Educational network, embracing the entire Province of Alberta. The broadcast was listened to over the entire western country as well as by our neighbors of the United States according to reports received in Edmonton.

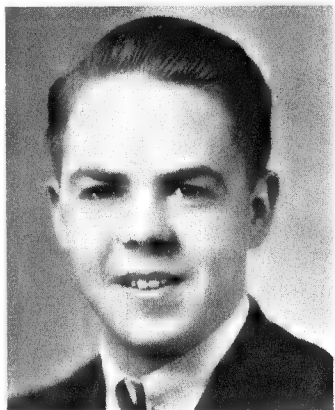

High literary standards were maintained in special columns, "Around the Clock", as well as in "Jabberwock". Outstanding articles written by leading members of the student body and faculty appeared from time to time on the feature pages.

An outspoken editorial policy was at all times stressed, both in connection with campus happenings as well as with current world events.

Above is an action photograph of the first home game of the current football season two weeks ago, when the Golden Bears took the Edmonton Hi-Grads into camp to the tune of 6-1. It was a good game to win.

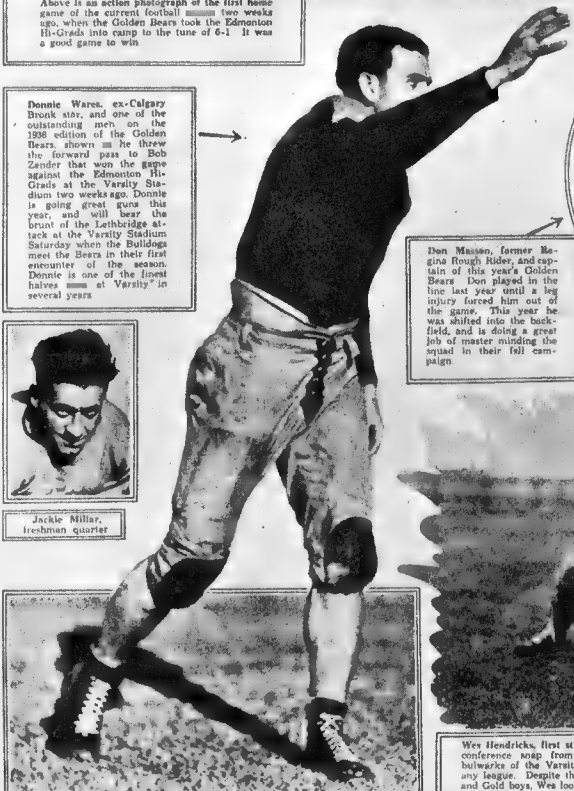

Don Irving, alternate snap with the Green and Gold squad this fall. Don is having a big season, and is one of the reasons for Alberta's success to date. Don, one of the five Dons of the team, also alternates in the backfield when occasion demands.

Donnie Ware, ex-Calgary Bronk star, and one of the outstanding men on the 1936 edition of the Golden Bears, shown as he threw the forward pass to Bob Zender that won the game against the Edmonton Hi-Grads at the Varsity Stadium two weeks ago. Donnie is going great guns this year, and will bear the brunt of the Lethbridge attack at the Varsity Stadium Saturday when the Bulldogs meet the Bears in their first encounter of the season. Donnie is one of the finest halves men at Varsity in several years.

Jackie Miller, freshman quarter

Don Mason, former Regina Rough Rider, and captain of this year's Golden Bears. Don played in the line last year until a leg injury forced him out of the game. This year he was shifted into the backfield, and is doing a great job of master minding the squad in their fall campaign.

Two more reasons why the Green and Gold brigade are expected to do big things this week-end. Bob Zender (left) and Gordon Wilson (right), end and back respectively. Both fast men, they are having a banner season on the squad.

Wes Hendricks, first string snap for the Bears. Wes, formerly an all-conference snap from Pomona College, California, is one of the bulwarks of the Varsity line, and can hold his own with the best in any league. Despite the fact that this is his first year with the Green and Gold boys, Wes looks good in his center slot.

Cliff Willets, newcomer to the Alberta squad this year, and going great guns now. Cliff handles many of the kicking assignments in the Janigan coached machine.

Two brawny bone-crushers, Douglas Smith (left) and Bruce (Man Mountain) Macdonald as they look to opposing ball carriers. Both Garneau High products, these boys are proving a tremendous asset to the Golden Bears this fall. Both are linemen.

Nick Woywitska, one of the chief factors in the Bear offensive. Nick is one of the slipperiest backs on the squad.

Bob Zender, who scored the winning points against the Edmonton Hi-Grads in the first game of the season two weeks ago. Bob is the first string right end.

Gordon Wilson in action. A product of Edmonton's Garneau high school, Gordie is starring this fall with the Varsity squad. When it comes to kicking and running, Gordie has few peers in the pickup world in this part of the country.

THE LITERARY SOCIETY

THE year 1936-37 has seen great progress made in the many activities of the Literary Society. With the inauguration of new departures in the Debating Society and an enthusiastic fulfillment of the usual programs in the other branches there has been evidenced a new interest in this ever popular branch of the Students' Union.

The Debating Society under Hugh John MacDonald conceived the idea of an Interfaculty Debating Competition and through the kindness of the Hon. J. W. Hugill a trophy was obtained. Competition was keen and the Interfaculty League will serve as a source of supply for Imperial and Intercollegiate debating in future.

Mary MacBeth aided by a capable executive guided the Dramatic Society through a successful year made up of the Inter Year Plays, the Spring and Festival Plays and Play Reading Groups. The Political Science Club held fewer meetings than in former years but the attendance and interest was well sustained. The Philharmonic Society under Jack Bradley scored another triumph in the presentation of the "Pirates of Penzance".

SINCLAIR ABELL
PRES. POLITICAL SCIENCE

MARY MACBETH

JACK BRADLEY
PRESIDENT PHILHARMONIC

HUGH J. MACDONALD
PRESIDENT DEBATING

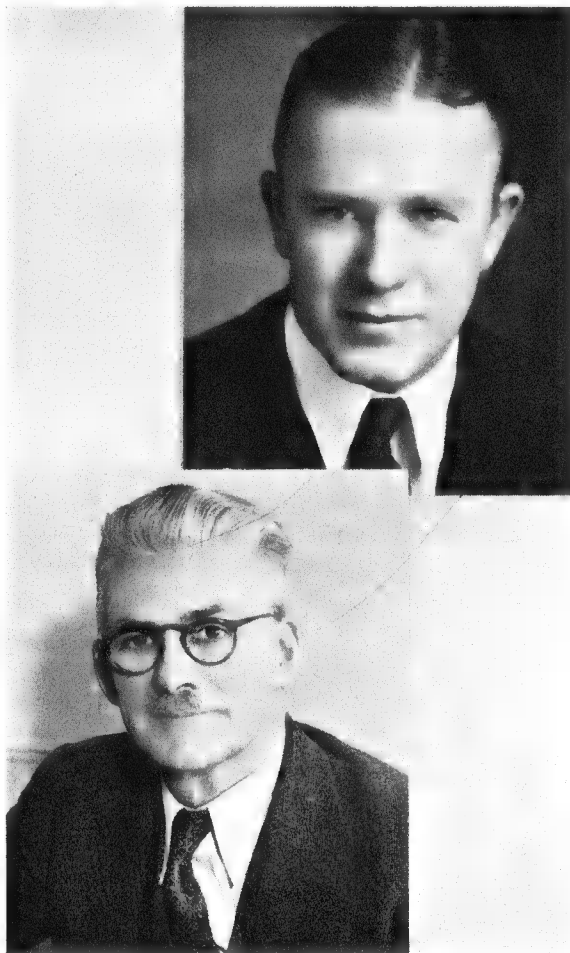

THE DEBATING SOCIETY

THE debating Society this season has had as its Honorary President, Dean Alexander, and a Student Executive composed of Hugh John MacDonald as President, Matt Davis as Corresponding Secretary, and Marjorie Montgomery and Burt Ayre, officers without portfolio.

The activities of the Debating Society were: The major debates, namely, the Imperial Debate and the Inter-Varsity Debates; the Canadian Radio Corporation Debate; the Open Forums and the Interfaculty Debates.

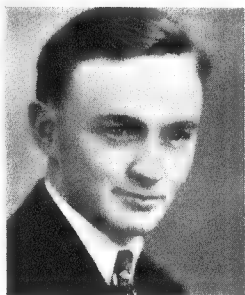

Also a new branch of the art of self-expression was formed under the leadership of the Debating Society, the Public Speaking Club, which club has gained sufficient strength to conduct its own activities.

Although lethargy has existed in certain phases of the Society's activities, greater interest has been aroused throughout the Student Body in Debating, and a foundation has been laid which will go far in easing the task of the incoming executive.

THE IMPERIAL DEBATE

THE first major debate of the season which was sponsored by the N.F.C.U.S. was held on November 25th, 1936, in Convocation Hall. The resolution which was argued read: "Resolved that the merits of the present day family as a social institution are over-rated."

The team against which Alberta debated was chosen from two of the leading British Universities, namely those of London and Edinburgh; the two men representing these universities were Bernard Ungerson from London and Malcolm MacEwen from Edinburgh. Alberta was represented by J. Harper Prowse and Leonard Bercuson.

Alberta, upholding the affirmative, held doggedly to the resolution, interpreting the topic to mean that the family as it is falls short of the composite ideal family that exists in the mind. The negative took rather a more prosaic point of

view that what people think of the family is less than what the family actually performs for us, putting forth arguments that were in a much lighter vein but somewhat less convincing.

The final summing up revealed that Alberta had won the decision. We might note that this was one of the debates chosen to appear in print in the "North American Debaters' Annual," which includes the best debates on the continent.

HENRY PATTERSON
MANAGER

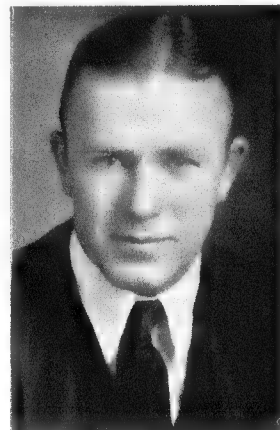

INTER-VARSITY DEBATES

IN the Western Universities' Debating League, Alberta this year met representatives from the Universities of British Columbia and Manitoba.

At home, for Alberta, Hugh John MacDonald and Victor Chmelnitsky met the representatives from the University of Manitoba. The debaters of British Columbia were opposed in Vancouver by the Albertans, Burt Ayre and Judd Bishop. Although Alberta went down to an honourable defeat, sufficient experience and knowledge was obtained that the probability of the repetition of such in the future is small.

When the full results were tabulated it was found that the McGoun Cup, held last year by Saskatchewan, had been won by Manitoba.

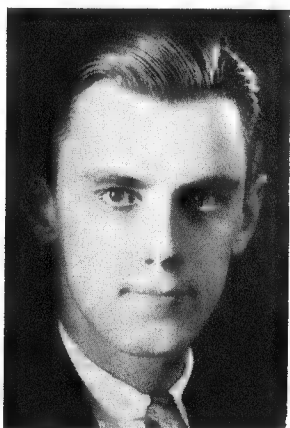

The resolution debated was: "Resolved that Canada should contribute to the Defence Forces of the British Commonwealth as a whole—unified, punitive force."

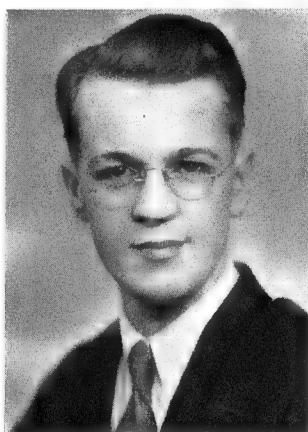

HUGH MACDONALD

VICTOR CHMELNITSKY

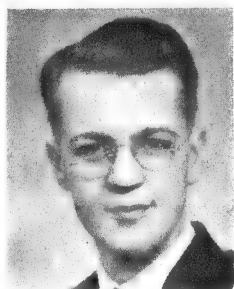

JUDD BISHOP

BURT AYRE

VICTOR CHMELNITSKY

BURT AYRE

RADIO DEBATE

IN the Canadian Broadcasting Corporation's series of debates, Alberta was represented by Victor Chmelnitsky and Burt Ayre, who upheld the affirmative of the resolution "Resolved that the history of the world is dependent upon the digestive tract." The negative was argued by the University of Saskatchewan.

Alberta's presentation, having more humor than that of their opponents, was somewhat easier to follow, but less convincing from the judges' point of view.

Although Saskatchewan gained the decision, there was only a one point difference between the two teams, indicating not only that the competition was keen but that the calibre of the debate was high.

INTERFACULTY DEBATES

ALAN MACDONALD

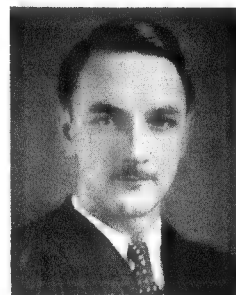

ANDRE DECHENE

THIS year for the first time in a decade the Debating Society sponsored a series of Interfaculty Debates, held competitively, for a trophy.

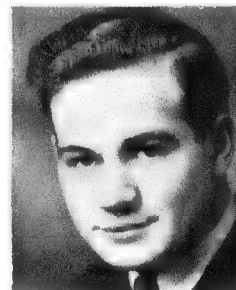

The trophy in question was kindly donated by Hon. J. W. Hugill, K.C., who has shown much interest and sympathy in students' activities.

In all, ten clubs or faculties were represented in the competition—namely those of Commerce, Pharmacy, Nursing, Engineering, Arts, Household Economics, Law, Agriculture, Medicine and Dentistry. After a series of eight debates the "House Eccers" and "Law" appeared in the final debate, "Resolved that our present social system handicaps youth," the Law students obtaining the decision.

Throughout these Interfaculty Debates greater interest was shown by the general student body in debating than has been the case for a number of years. This year's activities bespeak very well for the possibilities of the future.

MICHEL DUBUC

BLIMEY HUTTON

THE PUBLIC SPEAKING CLUB

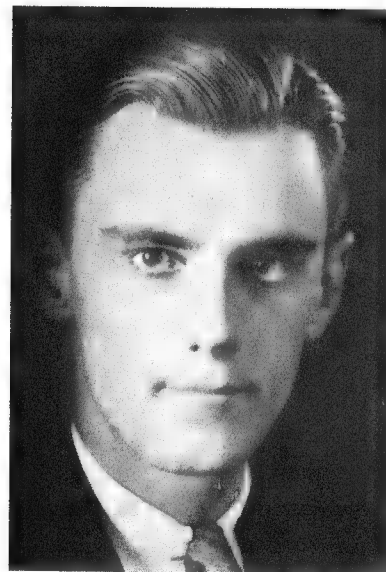

AFTER various false starts in previous years, the Public Speaking Club this season blossomed forth into a going concern, under the kindly wing of the Debating Society and its genial president Hugh John MacDonald.

The two enthusiastic preliminary meetings were addressed by Dr. Tracy and Brother Philip. Later an executive was appointed consisting of Judd Bishop as President; Hope Spencer as Secretary, David Stansfield, and Thomas Binnie.

In the short weekly meetings which followed, the policy of the club emerged. Guest speakers, among whom were included Dean W. H. Alexander, Dr. R. K. Gordon, and Hon. Perren E. Baker, gave brief talks on various aspects of the art of public speaking and then acted as critics for the speeches by the club members.

The Public Speaking Club welcomes the novice and offers valuable experience and expert instruction. For the experienced orator it provides a sympathetic audience and a helpful critic.

Until such time as a course in Public Speaking is offered the Club fills a definite need at the University, and from its humble beginnings in 1936-'37, looks forward to bigger and better things next season.

BOB FOLINSBEE
Vice-President

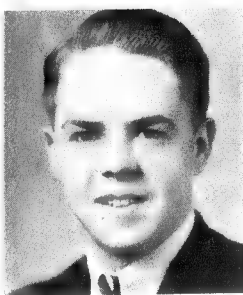

DRAMATIC SOCIETY

THE University Dramatic Society, with Mary MacBeth at its head has completed another successful year of Dramatic activities. The productions presented at the Inter-Year Play Competition and the Spring and Festival Plays are fine examples of what can be accomplished in the Dramatic field with the excellent talent at our University.

In November the Senior Class had the honor of winning the Inter-Year Competition shield with their presentation "Shall We Join the Ladies?" This dramatic play was carried off with finesse and polish. "King's Son—Churl's Son", a rather gloomy tragedy was the choice of the Junior Class and was well acted. The Sophomores performed a droll comedy called "The Oak Settle". An uproarious, rollicking comedy was presented by the Freshman Class. This was the "Pot Boiler" and the "best actress" and "best actor" were chosen from this fine presentation. All precedents were broken by this year's Frosh Class by producing such a successful play.

In March the choice for the Spring Play was "Dangerous Corner" by J. B. Priestley. "Dangerous Corner" is a modern, sophisticated, mystery drama, and under the capable direction of Emrys (Casey) Jones won much acclaim. Although some of the audience felt that "Dangerous Corner" was not the best choice for a University group, none denied the excellence of the acting and the skill with which the play was produced.

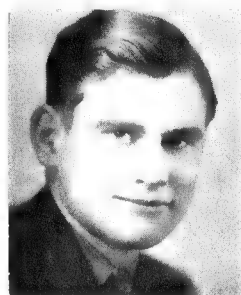

"The Dreamy Kid", a black-faced drama was sent down to the Dramatic Festival in late March. Jeff Bullock directed this production.

RILEY TROPHY

BEAUMONT TROPHY

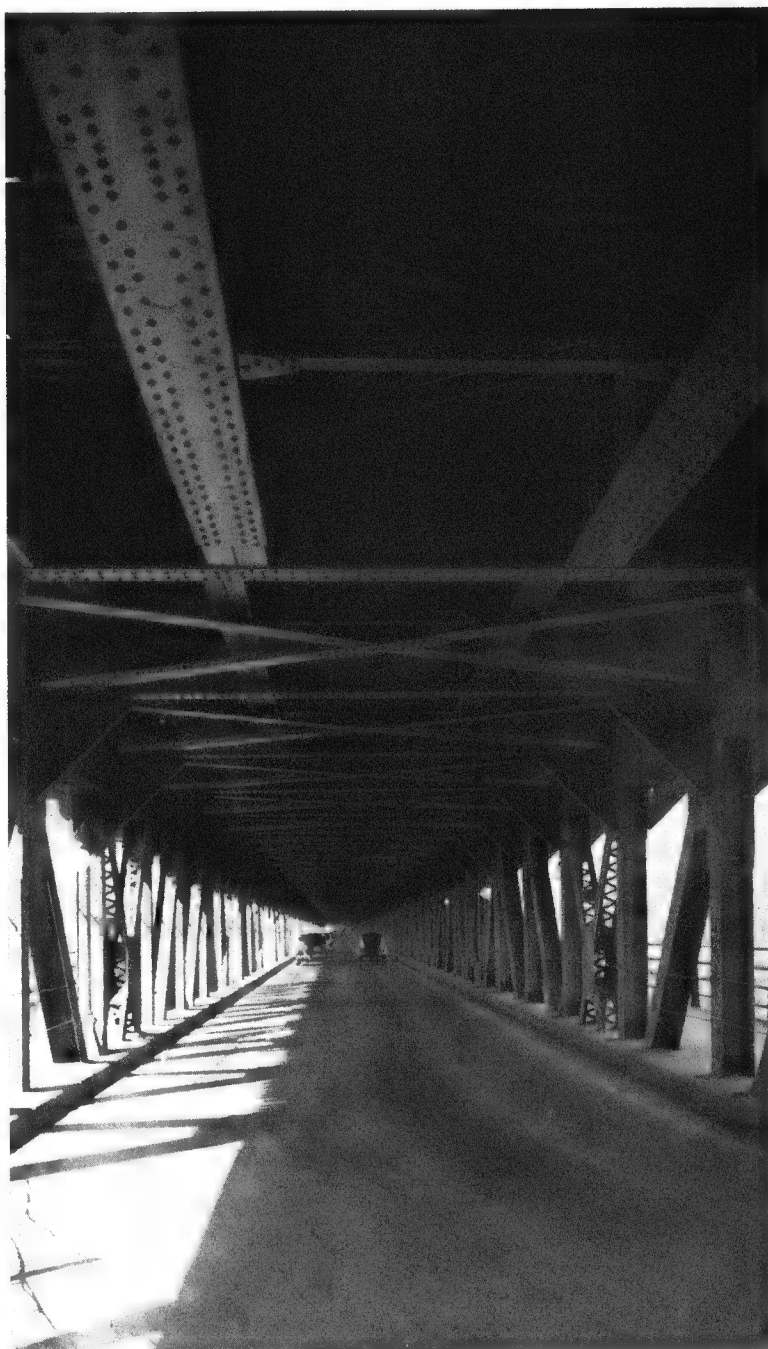

"For the Best General Record in Boxing."

Donated by Coach Wally Beaumont, this cup is competed for annually by the members of the Boxing Club, a replica going to the successful contestant. Selection is made by a committee of three comprising the President, the Secretary and the Coach of the Boxing Club.

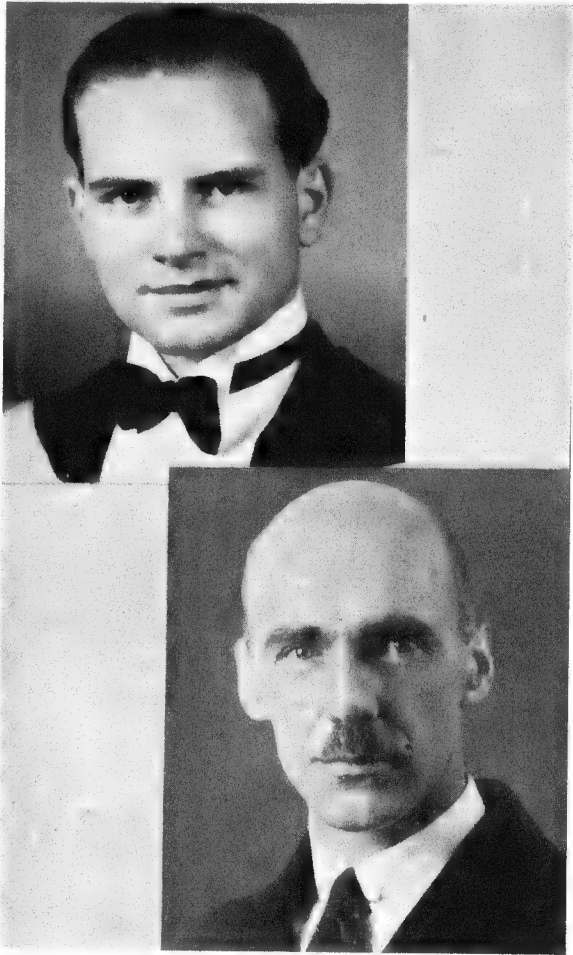

This award is made on the basis of: (a) Sportsmanship, (b) Progress, (c) Ability, (d) Unselfish interest in the development of the Boxing Club.

RILEY TROPHY

This trophy, donated by one of Alberta's finest trackmen, Harold Riley, is awarded to the contestant turning in the best individual performance in track events at the intercollegiate meet. This is the second year for its competition.

AGRICULTURE CLUB

EACH year the agricultural faculty grows larger, and keeping stride with progress, the Ag Club adds to its duties to become a more important factor in affecting the social life within the faculty.

This season the Freshman Class was introduced to the club members and club activities at a dinner held in Varsity Tuck in the fall term. During the year several meetings were held, prominent speakers being secured to entertain and inform the club on topics of interest.

As in the past, the club parties were well attended and thoroughly enjoyed by members and guests, and the Annual Formal held in the Masonic Temple in January was superlative entertainment.

In Interfaculty competition the club did not shine very brightly, being defeated in the fields of Basketball, Rugby, Soccer and Debate. We offer our congratulations to our victorious opponents and glibly mutter about the things to happen next year.

ENGINEERING STUDENTS' SOCIETY

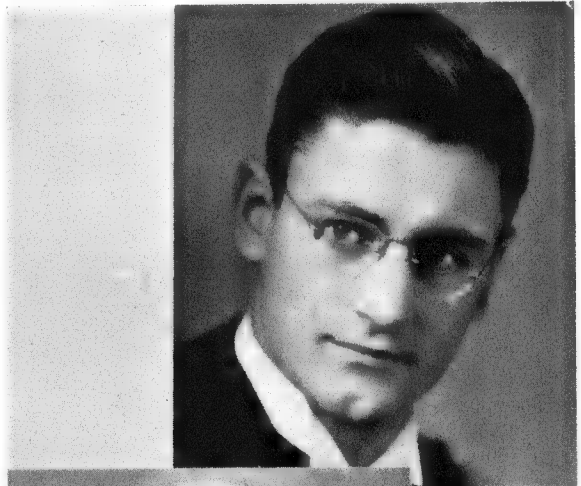

ENGRAVED on the annals of the Engineering Students' Society is the splendid record of achievements during 1936-'37. High interest, keen enthusiasm and boundless energy have led engineers to the top in the majority of campus activities.

In the realm of athletics, scientists have not only been well represented in the senior ranks, but have been "right in there" in all inter-faculty sports. In addition, the Worm Hockey League, made up of teams of senior students from the four branches of engineering, functioned with no end of vim, vigor and infirmity cases.

Engineers have been prominent in Open Forum Debates. Their influence has been felt in class executives.

An excellent series of addresses by outside speakers and student papers of high calibre provided for well-attended meetings which were at once interesting and instructive.

The Society extends its thanks to the Professors in Applied Science whose co-operation has made possible such a successful year.

COMMERCE CLUB

DURING the past year the Commerce Club has enjoyed the enviable reputation of being the most active organization on the campus. Led by a forceful and energetic little president, the club proceeded to show its increased membership just what it could accomplish.

From the enjoyable party in the Varsity Tuck Shop in the fall, to the highly successful banquet and dance held at the Corona Hotel in March, the year was filled with activities. Although the number of luncheon meetings was reduced, the standard was held at a high level. Through the co-operation of the faculty, prominent businessmen and legislators were engaged to speak on the various phases and requirements of the world of business. The occasion on which the Commerce Club was the guest of the Kiwanians at their luncheon in the Macdonald Hotel undoubtedly was the highlight of the year.

As a more concrete accomplishment, the Commerce Club this year has compiled complete information as to the business experience and academic records of the graduating members and, with the assistance of the University authorities, has placed this information directly in the hands of the businessmen and professional men of the province. It is hoped that in future years this scheme will bring about a closer co-operation between the world of business and the individual Commerce student.

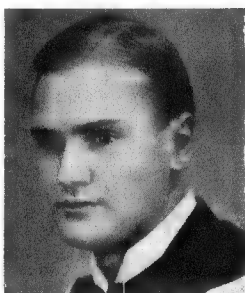

The future of the club rests secure in the capable and energetic hands of the new executive, headed by Bob McCullough.

CERCLE FRANCAIS

THE "The dansant" on the 25th of March brought to a close the activities of the Cercle Francais for 1936-'37. The programme of the group for this past season has been an interesting and varied one.

A scene from Moliere's "Le Bourgeois Gentilhomme" and some Charades were acted by the members in a most amusing manner. Some Folk-songs were rendered by musically-minded students, and a pleasing and interesting talk given on St. Saens' "Carnaval des Animaux" and illustrated with recordings.

Dr. Alexander, Dean of Arts, gave the Cercle a very stimulating lecture on the Greece of Pericles entitled "Une Crise Economique Ancienne". The subject has evident and very practical modern applications.

The annual play, "Par un Jour de Pluie" by L. Forest, was put on in the Convocation Hall on March 11th before a large and enthusiastic audience. Dr. Sonet directed the rehearsals and the performance was a real success.

The "Cercle Francais" has always occupied an important place in the activities of the students and constitutes a valuable auxiliary to courses in the language. Members feel that a good deal of benefit as well as real pleasure is derived from the fortnightly "Reunions" of the Cercle.

DENTAL CLUB

THE Dental Club ends its twelfth, and most successful, year since its inception, bidding farewell to fifteen graduates. Winning the Interfaculty A-League Hockey, has long been the ambition of our club, and was realized this year. In academic fields, too, the members of our club have been crowned with laurels, winning the interfaculty debating. The annual banquet followed by the supper dance at the Macdonald Hotel, has been voted the most successful of the club's affairs.

For the Hall of Fame, we nominate the new President of the Students' Union, Archie McEwen—a Dent!

HOUSEHOLD ECONOMICS CLUB

ANOTHER successful year, enjoyed by the Household Economics Club has drawn to a close.

The development of a feeling of good-will and co-operation among the students in this faculty during the year may be to a large extent attributable to the success of this club.

The club not only promotes friendship among the members but through the medium of outside speakers adds interest to the course by giving the members an idea of the many and varied fields which Household Economics includes. Speakers who have honored the club with their assistance have included Miss Laird, formerly of the University of Toronto; Mrs. Vant, formerly of the University Hospital; Miss Stacey of the University Hospital, and Mae McPherson, Kay Dunning and Margaret Hegler of our Senior Class. The subjects on each occasion were very interesting and of an instructive nature.

The social activities of the club have been varied and numerous, the chief feature being our annual banquet and dance, which was held at the Corona Hotel.

House Eccers, however, are not known for their culinary achievements alone, but also for their part in almost all Campus activities. Some are on the Senior, Junior and Sophomore Class executives, some on the hockey, basketball and badminton teams and many are noted for their scholastic standing.

We, who are leaving, take with us many pleasant memories gained through our associations with one another in the Household Economics Club and we hope that those coming behind will benefit as we have.

MEDICAL CLUB

IN retrospect, the Medical Club can view with satisfaction definite progress accomplished in its own horizon during the past term.

The monthly general meetings have been well-attended and aside from the excellent entertainment and speakers provided, a constitution to facilitate smoother operation of the club machinery was drafted and accepted. Special functions of the club, in the form of the Med Ball and the Med Banquet, were both outstanding.

Contributions were made to the Mewburn Medal and the Vango Memorial,—an act which was considered a privilege in so being able to honor the names of these two men.

The Med Club can feel justified in its existence during the past year—a year of accomplishments and intrinsic values.

STUDENTS' CHRISTIAN MOVEMENT

THE progress made through the past two years continued in 1936-'37. Attendance, interest and valuable achievement warrant such a statement of our activities this year. Much was left undone: but to students, faculty and University staff who gave us their hearty and sympathetic co-operation we owe a real debt of gratitude for that which we did carry to successful fruition. With Spring Camp and National Conference to come great things are expected for 1937-'38.

PHARMACY CLUB

THE Pharmacy Club once again demonstrated their right to be called "The Most Active Club on the Campus." With an active membership of forty-eight, nearly ninety per cent of the enrolled students, and a competent executive head by Bill McCalla, the success of the various activities of the club were assured.

The most worthy effort of the year, "The Undergrad" was unhesitatingly adjudged the highlight of the social year, a tribute to the organizing ability of the dance committee, headed by Cec. Johnson.

Monthly supper meetings were featured by special speakers, including Col. Dunn, Professor Matthews, Dean Alexander and Dr. Pett. One meeting was held in conjunction with the Edmonton Retail Druggists' Association.

The club has been ably represented in athletics. Jean Cogswell in Ladies' Basketball; George Walker in Senior Basketball; Jack Dunlap in Senior Hockey; and the Pharmacists and Dents carried off the Inter-fac Shield in hockey. The club also entered the Inter-fac Debates and provided the "Best Actor"—George England—in the Inter-Year Plays.

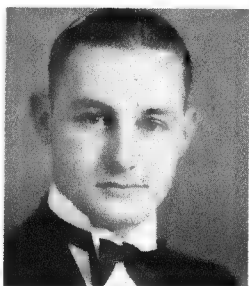

The Annual Banquet held in fitting style at the "Mac" was more successful than ever before and created a fitting finale for a most successful year.

LAW CLUB

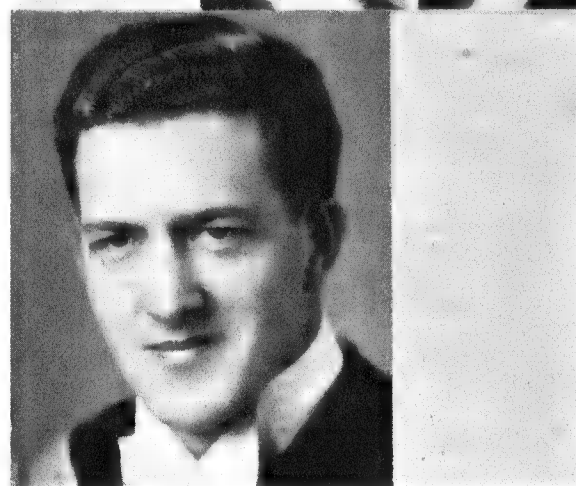

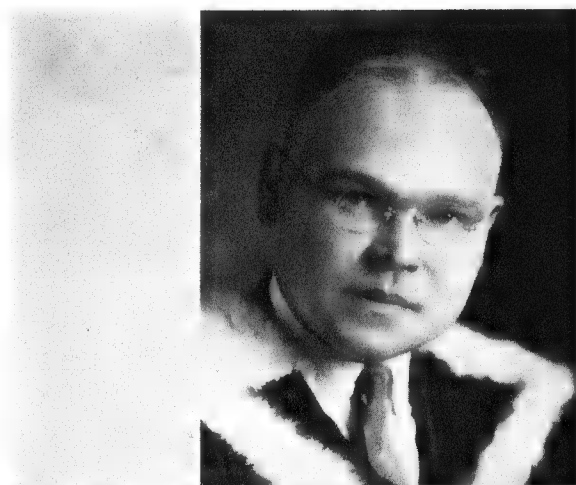

ONCE again the Law Club has enjoyed a year of successful activities, for which it can be highly commended, when considering the varied interests which the members have in other non-academic fields.

Members of the Law Club took part in the Interfaculty rugby, being on the successful side in the play-offs. In Interfaculty hockey they were in the team which was barely "nosed out" of winning the laurels. For the second consecutive year Law has been represented in Interfaculty basketball by a team of its own.

The trophy which was presented by the Hon. Mr. Hugill to the winning Interfaculty debating team, now adorns the law library. In other literary fields, the "Alberta Law Quarterly" has once again attained the position of being a creditable contribution to legal literature.

A successful programme of informal luncheons was carried out, being climaxed by a formal banquet at which there were many prominent guests.

The Law Club, we are sure, will continue to be a success in the years to come.

SCHOOL OF EDUCATION

THE School of Education Society, larger than ever before, has shown activity during the past term commensurate with its increased membership.

The Society arranged meetings which had to do more particularly with our chosen vocation of teaching and its problems—problems which we think became ever more clearly defined as the year drew on. Talks and addresses by teachers and by men in the Department of Education gave us first hand information of what Alberta is attempting to do with her new educational programme.

One of our major activities of the year was participation in a series of educational broadcasts which were released over stations of the Alberta Educational Network. We contributed four half-hour broadcasts to the series, and in these most of the class took some direct part.

Not to be forgotten: the sessions in St. Joseph's Cafeteria, especially those which took place almost sub rosa between lectures; the days of teaching in the city schools, and the nights of preparation which preceded them; and the hurry and scurry involved in rushing from one committee meeting to another, for of such was made our weekly round.

Above all, we hope that we have developed an intelligent attitude toward the purpose and aims of education, and a realization of the important part which the teaching profession must play in a democratic society.

PHILOSOPHICAL SOCIETY

THIS society was organized in May, 1912, under the presidency of Mr. James Adam, with the aim and purpose of stimulating interest in philosophical problems—"philosophical" being interpreted in a very wide sense. Over the twenty-five years of its successful activity that purpose has found realization in various undertakings superimposed on a background of regular meetings at which papers are delivered by members and specially invited guests. To a recent past president, Dr. Edouard Sonet, we owe the institution of an essay contest open to all undergraduate students in the University. Each year the Society conducts this contest and from its membership fees provides the sum of \$175 in prizes with the purpose of encouraging interest and proficiency in student expression of original thought on topics carefully selected over a wide range of subject matter in order to offer opportunity to the varied interests of the competitors.

This session the Society found itself crippled by the fact that half of the executive elected to conduct

R. W. COLLINS
FACULTY REPRESENTATIVE

JACK GARRETT

PHILOSOPHICAL SOCIETY

its affairs through the year had unexpectedly answered calls to serve other institutions. Mr. D. E. Cameron, University librarian, who had long been a loyal and enthusiastic supporter of the Society, generously filled the breach and arranged our programme of meetings before the opening of the session. The programme provided a wide variety of excellent papers, and the Executive of the Society wishes to take this opportunity of expressing its gratitude to Mr. Cameron.

We take pleasure in announcing that this, our twenty-fifth year, has been financially successful in that we are able to pass on a balance of approximately fifty dollars as a reserve for the Society for next year.

MINING AND GEOLOGICAL SOCIETY

DR. P. S. WARREN
HONORARY PRESIDENT

A. D. GRAVES
VICE-PRESIDENT

THE year 1914 saw the organization of The Mining and Geological Society, an association comprised of third and fourth year students in Mining Engineering and senior students in Geology. The following term the scope of the Society was broadened when it became affiliated with the Canadian Institute of Mining and Metallurgy.

To increase the general knowledge of its members by reading and discussing papers at the regular meetings on subjects dealing with Mining and Geology is the principal object of the Society. With this end in view, several interesting topics were presented by members and guest speakers during the course of the term.

Contributing further to the programme, members this year were fortunate in being afforded an exclusive opportunity to attend the sessions of the Annual Western Meeting of the C. I. M. & M. in October.

The society wishes to express its sincere appreciation to the professors of the Mining and Geology departments for their assistance and co-operation during the past year.

A. R. BAKER

W. L. REDMOND
SECRETARY-TREASURER

POLITICAL SCIENCE CLUB

THE Political Science Club endeavours to obtain for its meetings men and women closely in touch with affairs—representatives and interpreters of world events and the various schools of Political Philosophy. Its two chief difficulties are lack of speakers and lack of interest. A remedy might be suggested.

Such a club must, under the existing arrangements, confine itself rather largely to a somewhat cold and critical discussion, which, while good in itself, may incline the student body to forget that in the political field "knowledge for the sake of the good things to which it leads" may be no less important than "knowledge for its own sake." Grave problems today face the citizenry of this country and yet, here, among those who will one day accept a portion of the responsibility for their solution there exist no organizations which might lend that touch of interest and loyalty often so necessary as stimuli to fruitful discussion.

As long as our virtue remains "fugitive and cloistered" and we accept as our watchword, "Young man, thrust thyself not too forward into this vain hurly-burly" we can hope for little. It would indeed seem scarcely an exaggeration to say that until such time as the Political Science Club exists in some measure at least as the focus of action, political groups on the Campus, using their contacts to aid in securing speakers and yet bringing to the warmth and zeal of animated controversy the leaven of academic disinterestedness, it can reasonably expect only the most meagre degree of success.

SINCLAIR ABELL
PRESIDENT

THE OSLER CLUB

DR. J. J. OWER
HONORARY PRESIDENT

COMPOSED of the sixth year medical class, the Osler Club aims to educate its members on matters of historical, scientific and medical interest. Thus it carries on the tradition of the late Sir Wm. Osler, who founded student and graduate societies with a similar purpose. The club members have presented papers, on interesting cases, on the history of medicine and on recent advances in the many branches of medical science.

Owing to large membership, the club was organized in two sections, each meeting bi-weekly; thus every student has actively participated in the presentation of papers and in the lively and interesting discussions.

The club has enjoyed the patronage of Dr. J. J. Ower, its honorary president, and is indebted to him for his helpful suggestions and enthusiastic support.

MORLEY TUTTLE
PRESIDENT

ELLA CRISTALL
SECRETARY

RALPH SCHRAG
VICE-PRESIDENT

THE ECONOMICS CLUB

THE Daleth Ayin Beth Club was founded in 1930 for the purpose of discussion of current economic problems both national and international. The arduousness of this search for the knowledge which paves the way to understanding has fortunately been greatly alleviated by the free and congenial atmosphere of the places of meeting.

This year the club was most happy to be able to arrange a special meeting for Dr. Leacock during his visit to the city, and the distinguished guest spoke on the alleged topic, "Adam Smith Dead?!"

The club again offers a prize of books to the student in Political Economy I, whose paper affords the least conclusive evidence of imbecility.

Dances

Braves and Squaws . . . and their native "HEATH"

THE WAUNEITA

FIRST it becomes a major function and now it rates the Year Book. Each little Indian maid brought along her handsome brave and they danced to the rhythmic beat of Lambertson's tom-toms. Indian posters decorated the wall. The man on the horse is probably the heap-big Chief . . . or sumpin'.

SOPHOMORE RECEPTION

AMID soft colored lights, beneath the benevolent gaze of cherubs, surrounded by fleecy white clouds, the Sophomore Class gave their annual reception to Freshmen.

Dancing to the music of Milt Edwards and his Archangels those who were fortunate enough to get tickets looked down from their heaven of the evening upon a flood-lit earth below, revelling for one night among ethereal surroundings.

The music, the decorations, the congenial crowd and the distinctive patronage of Mrs. Kerr, Mrs. MacEachran, Mrs. MacIntyre, and Miss Dodd combined to make this one of the outstanding functions of the year.

"CHERUB" and His Heavenly Host

JUNIOR PROM

AT 9 p.m. on December 4th, the good ship "S.S. Romantic" drew majestically away from her pier bound on one of the merriest cruises of the year. As

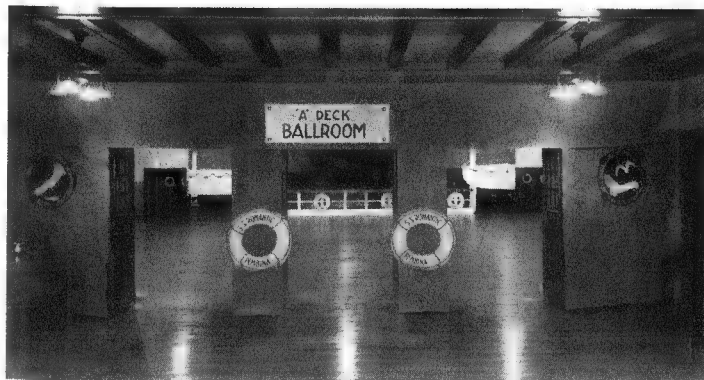

We go aboard the "S.S. Romantic"—SKIPPER WALLACE

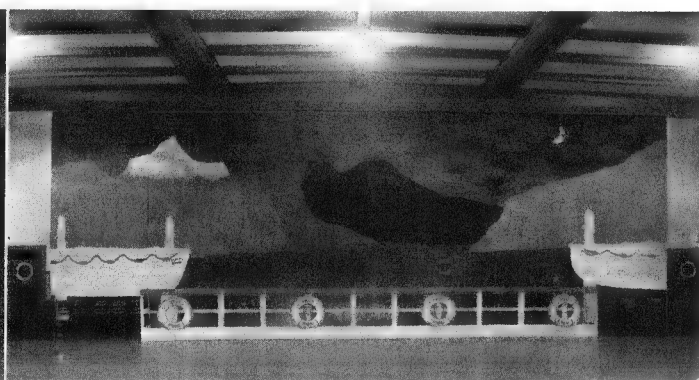

Quartermaster Lambertson at the wheel of the "S.S. Romantic"

she steamed smoothly over warm moon-lit waters the dreamy music of Quartermaster Lambertson's Crew softened the hearts of a capacity throng of dance-loving passengers in the softly-lit ballroom on "A" deck. And as the ship docked, and the passengers disembarked into a sub-zero atmosphere, the memories of that cruise remained to enlighten and warm the long nights in the dreary months that are Alberta's winter.

The Ballroom . . . "A" Deck

From the deck of the "S.S. Romantic"

CHRISTMAS . . . CRACKERS . . . TURKEY . . . EXAMS!

CHRISTMAS BANQUET

ON the evening of December the 12th time was "called out" on the crushing strain of impending examinations for one of the most delightful functions of the year—the Christmas Banquet and Dance. For one brief, gay evening the less attractive contemplation of term tests was supplanted by the more agreeable aspects of holidays in the offing, colored with all the associations that holly, crackers and plum pudding can arouse.

Spirited toasts and a varied program of entertainment followed a "true Christmas" dinner. Then, in an atmosphere pervaded with all the gaiety that characterizes the yuletide season, an informal dance completed what is rapidly becoming one of the most enjoyable events on the campus social calendar.

THE UNDERGRAD

THE Undergrad, for the first time in its history, was sponsored by the Pharmacy Club. Sparing no effort, the dance committee arranged an attractive programme, the rhythmic music and clever and intriguing decorations being especially worthy of note. The first mentioned took the form of a prescription, while the most appealing part of the decorations was the array of elfin-like dingbats who smiled or scowled down upon the Pharmacy Club members and their guests.

MCCALLA AND THE LAND OF THE DINGBATS

THE MIDWINTER

FACED with the problem of putting over a formal, the query, "To be or not to be—" was received with cutting indifference by the campus dance fans, the Senior executive sponsored the Midwinter Cabaret and hit the top in class formals.

Decorations by Weeks: forerunner of the new mode—simple but effective.

Music by Cameron: "The best yet", heard from reliable sources.

Entertainment by Thexton and Taylor: tap dancing de luxe.

Cabaret style: called by many old-timers "the most informal formal on the campus".

In all, a delightful evening; with many novelties and snowballs to prove that people don't have to be entertained if given the opportunity to entertain themselves.

THE SENIOR CABARET . . . HOST THOMPSON

THE FRESHMAN RECEPTION

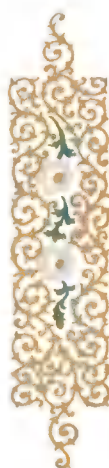

THE bell at the Little Red School House rang at 8:30 on March 13th as Milt Edwards struck up the music for the Frosh Reception to Sophomores. The blonde school teacher's lessons of readin', 'ritin' and 'rithmetic were ignored for the modern three R's of Rhythm, Rumba and Romance. All the well-known characters of the classroom were present from the teacher's pet who could add two and two together and get four, to Snowball the school imp.

Such a novel and informal setting led to the banishment of care as students frolicked at the last major function of the year.

MEN'S ATHLETICS

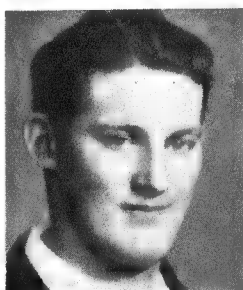

INTENSE activity characterized the term 1936-'37. The much-discussed Athletic Ticket was reintroduced. New equipment was distributed freely to all clubs requiring same and a decided spirit of co-operation between executives and players was evident.

All teams, except one, travelled to compete in inter-collegiate competition. Many were their successes and hard-fought their losses. Inter-faculty sports attracted more than usual interest and two new clubs, Skiing and Fencing, were admitted into the Men's Athletic Association. Four members of the Association won Major Award Sweaters, one of these coveted honours going, for the first time in history, to a minor sport athlete. New trophies were donated by the Edmonton Bulletin and John Burns. The aggregate number of athletic awards won was in the neighborhood of one hundred and sixty.

Sport for the coming 1937-'38 session has not been forgotten in the extreme activity of the present year, inter-collegiate competition between the three western universities having already been definitely arranged. With a continuance of this year's spirit and standard of playing, a banner year is predicted for 1937-'38.

WOMEN'S ATHLETICS

THE year 1936-'37 has been very successful for women's sports. Inspired by our Honorary President, Mrs. Whit. Matthews, the girls have really accomplished a great deal in the field of athletics. Looking back over the year we see first success for the tennis team at the meet here against Saskatchewan University. Then women's track had a very successful field day and later won honors at the Winnipeg meet. The basketball team again brought the cup to Alberta, this making the 12th consecutive year they have held the trophy. The women's hockey team entered the western Canada finals at the Banff Winter Carnival and came within a goal of being the champions. Later a series with Edson was played, one goal lacking again. But the girls feel confident of success next year after putting up such a good fight this season. A very successful swimming meet was held in February, the Alberta girls taking all the honors from visiting teams. Badminton also showed up well this season.

A combined women's and men's banquet was held for the presentation of awards.

Considering everything, the Women's Athletic Association has passed the most successful year to date.

ONE of the most energetic and necessary organizations on the campus is the Rally Club. The purpose of the club is to bring about a unified transmission of vocal support from the student body at all the athletic games. In order to do this, they followed up a suggestion put forth last year, that of organizing the students into cheer sections. In this manner, the rugby, hockey and basketball squads received some real encouragement.

Another reason for their success can be pointed to the fact that they were able to get one of the loudest and most boisterous Freshman classes behind them and the Varsity teams. This began with the Rugby games and carried on throughout the year.

It is essential that this class encourage the coming class of Freshmen to aid their teams and the Rally Club. In this way, over a period of years, a fine Varsity spirit can be built up. Teams will play much better if they know the students are supporting them. Certainly the success of athletics generally this past season can to some extent be attributed to the fine work of the Rally Club.

COACHES

JAKE JAMIESON

Jake Jamieson, coach of the men's rugby and men's and women's senior basketball, is as well, Director of Athletics. Jake himself is an outstanding athlete, and has participated in practically every game played in Canada. His ability is probably most outstanding in the basketball squad, the men's team playing right through to the Provincial finals, and the women's team taking the Intercollegiate title.

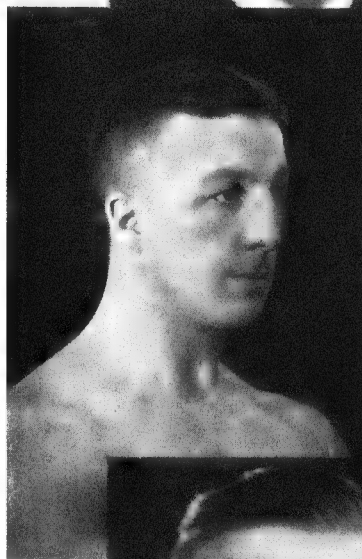

JACK TALBOT

Jack is a fourth year student at the University, and for the past two years has coached the senior men's and women's hockey clubs. Jack is an outstanding stick handler, and checker and knows the game thoroughly, as indicated by the success of the teams this year.

WALLY BEAUMONT

Wally Beaumont knows his boxing. At one time he was boxing coach in the British Navy, and since coming to the university, has built up the Boxing and Wrestling Club until today it could probably take on the King's marines without undue suffering.

ERNIE WILLIAMS

Ernie Williams has been coaching the track teams at this university for a number of years. Ernie knows how to train the men and women, and under his instruction, interfaculty and intercollegiate records are being steadily broken by Alberta contestants.

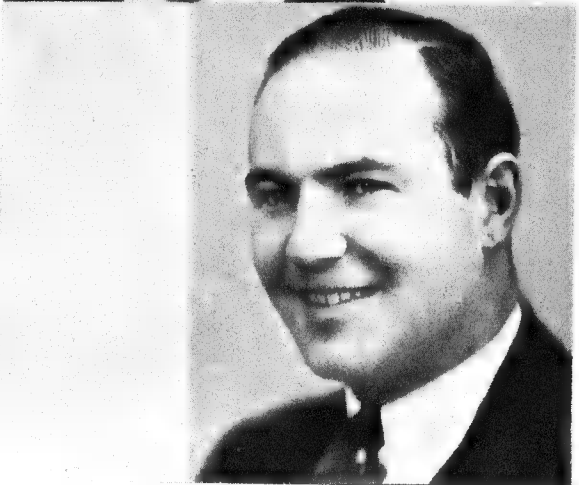

Rugby

JAKE JAMIESON
Coach

DON MASSON
President

SENIOR RUGBY

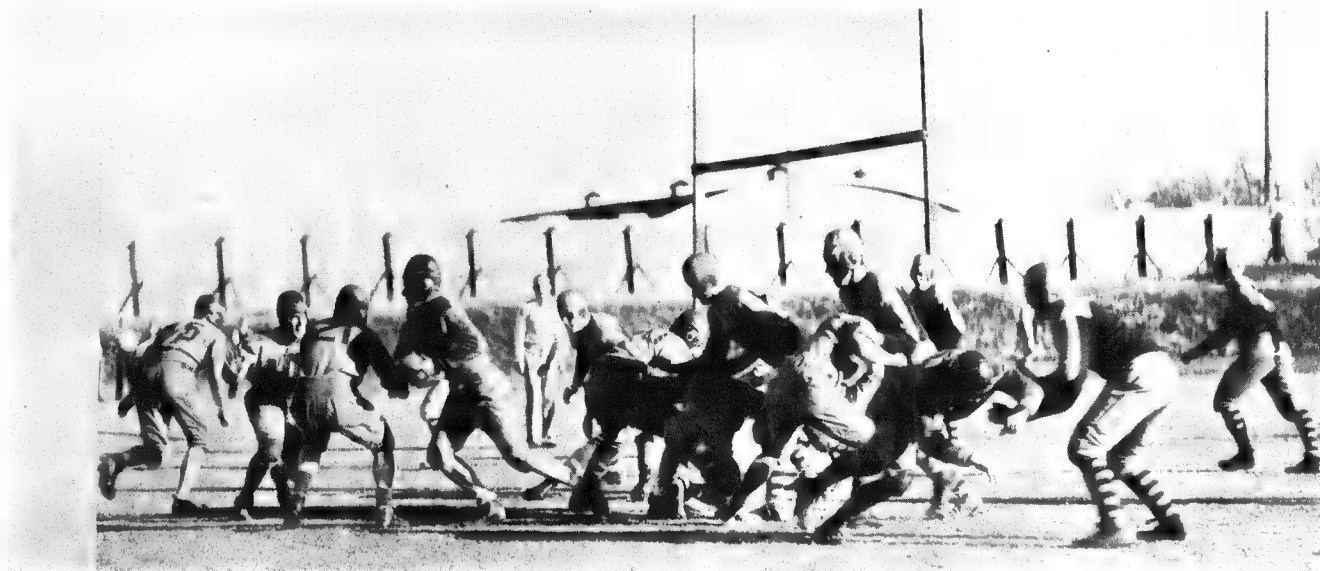

WITH a nucleus of a dozen veterans from last season, Alberta with the aid of a few outstanding freshmen, and some former Interfaculty players, turned out a really fine squad this year, and although the Hardy Trophy was not won, a close and bitter contest was waged for it with Saskatchewan.

"Jake" Jamieson again coached the team in his usual capable and highly efficient manner, and with more seasoned material to work with than in his first year, he showed the grandstand critics, a well coached and fighting squad.

Mac Hall was again appointed manager, with George Casper and Jack Lees as trainers. The team was very grateful for the services of these men and take this opportunity of thanking them.

MEN'S SENIOR HOCKEY

MEN'S Senior Hockey has just experienced its most successful season in three years.

Again coached by Jack Talbot, the team showed steady improvement, and by the end of the season ably defended the Halpenny Trophy, emblematic of Inter-collegiate Hockey supremacy.

BILL MOODIE
Manager

INTERCOLLEGIATE CHAMPIONS

Built around last year's veterans of Bill Stark, Bob Zender for defence; Nick Woywitka, Doug Sharpe, Bill Scott and Jack Dunlap forwards, the addition of several outstanding interfaculty players went to make up a strong team. Notable of these players were Frank Hall, Pat Costigan, and Verne Drake. Mention should be made of those players who filled in vacant positions due to sickness of the regular players during the season; Murray Warren, Bob Cruickshank, Malcolm McCallum, Bill Fraser and Marty Dewis playing well in several league games.

JACK DUNLAP

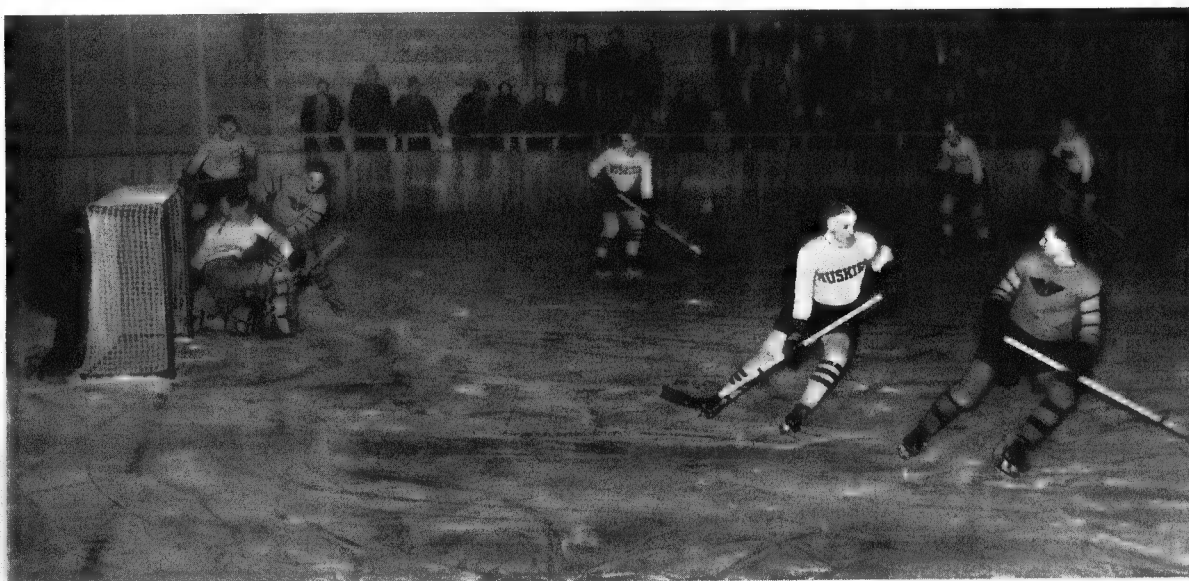

BILL STARK

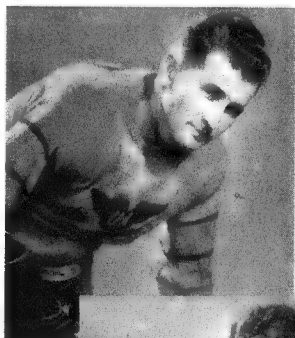

MAC McCALLUM

GRAY McLAREN

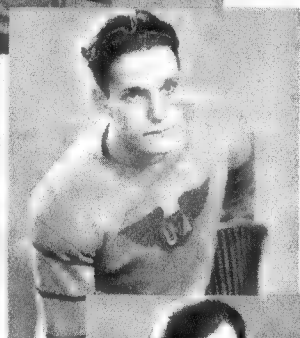

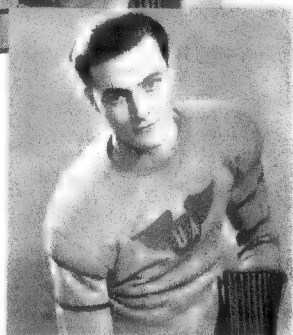

NICK WOYWITKA

SAM COSTIGAN

VERNE DRAKE

PAT COSTIGAN

SENIOR

The Senior team this year was entered in the Northern Alberta Intermediate Hockey League comprised of Vegreville, Camrose, Wetaskiwin and Varsity. Providing keener opposition and more games than were played last year, Varsity finished third in the league standing. Forced to withdraw from the league and intermediate playoffs because of the lack of travelling funds, the season ended with the Intercollegiate series against the University of Saskatchewan in February.

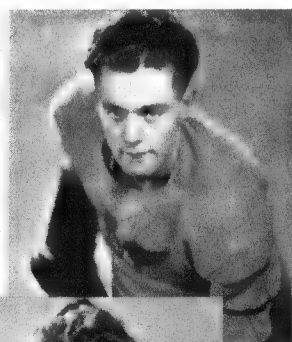

HOCKEY

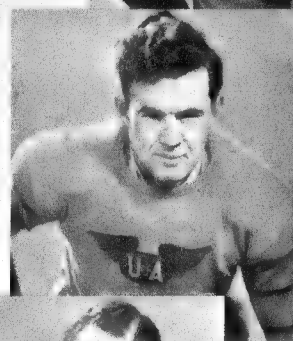

Alberta travelled to Saskatchewan first, winning the first game 2-1, and dropping the second game 6-4. On the return to Alberta the results were a win for Alberta 2-0, and a tie game 3-3. Thus Alberta won the series by a game and one goal margin and retained possession of the Halpenny Trophy for another year.

It is hoped that the team may enter the same league next year and with the prospects of having the same players returning, Senior hockey should be worthy of even better support.

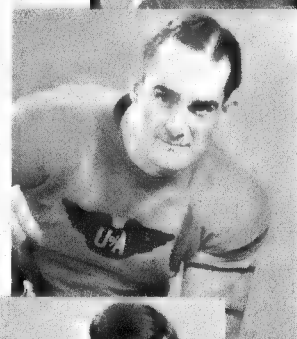

DOUG SHARPE

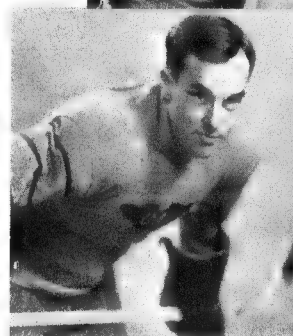

FRANK HALL

BILL SCOTT

BOB ZENDER

JACK TALBOT
Coach

ALICE MacDONALD
President

WOMEN'S HOCKEY

WOMEN'S hockey really came into its own this year, and made history in university women's athletic circles by travelling to compete in the Banff Winter Carnival. Unfortunately the Co-eds. were defeated by one goal in a two game series, losing the trophy to the Calgary Grills.

No teams in Edmonton were entered in the League, the Rustler and Muttart teams of last year having disbanded. The intermediate cup for Northern Alberta, at present held by the Rustlers, was to be competed for with the Edson Monarchs. In this our girls were defeated in the series but made a good showing.

Two newcomers were on the team this year, Helen Stone, who played on right wing with Audrey Stephenson and Marian Chesney, Helen proved a tower of strength to the Co-eds. Isobel Dean, also a newcomer, and another right winger, supported Mary Hewitt and Alice MacDonald on the first line.

Margaret Stone and Ruth Hazlett, two stalwart worthies from last year's team, held the Co-ed's hopes on the defence.

Helen Rose turned in a truly great performance in the nets.

Jack Talbot, coach of last year, was back again and greatly aided the girls in their hockey technique.

Basketball

JAKE JAMIESON
Coach

CLAIR MALCOLM
President

MEN'S SENIOR BASKETBALL

UNDER the able coaching of "Jake" Jamieson, to whom much credit must be given for the success enjoyed by this year's team, the 1936-'37 basketball squad has proven to be one of the strongest to represent Alberta in several years.

Unfortunately Jack Thompson and Ian Cooke were unable to finish the season and this necessitated bringing up two outstanding Interfaculty players S. Cosbourne and R. Martin who have done remarkably well for being called into action so late in the season.

Two new members in Guy Morton and Sam Moscovitch added new strength to the nucleus of last year's squad composed of Walker, Lees, Malcolm and Richard, the last two playing their fourth and last season for the "Bears".

Intercollegiate basketball was successfully resumed this year with U. of Sask., a four game home and home series being played. Alberta won both games at home and carried an 18 point lead to Saskatoon but were forced to meet defeat in the two games there, losing a closely contested series by a seven point margin.

In the Alberta Provincial playdowns Varsity won five out of six games with Edmonton Redskins in a hard fought five out of nine game series for the Northern title.

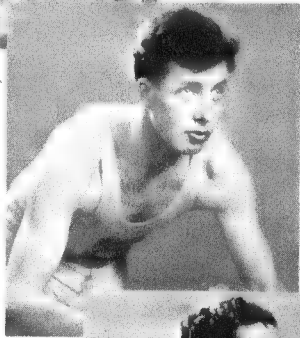

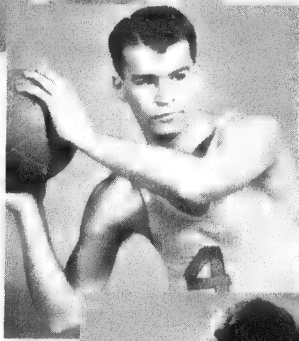

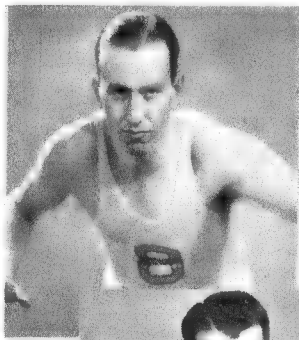

Calgary "Grills", sectional winners of the central part of the province were the next victims, Varsity winning two straight games and gaining the right to meet the Raymond "Union Jacks" in a two game, total point series for the Senior Provincial Championship.

It is hoped and the boys feel confident that this year's squad will be successful in their quest for provincial honors in the forthcoming series.

GEORGE WALKER
JACK LEES
HAROLD RICHARD

NORTHERN ALBERTA CHAMPIONS

JAKE JAMIESON
Coach

GAY ROSS
President

WOMEN'S SENIOR BASKETBALL

THE Women's Senior Basketball team have played "heads-up" basketball this season. Out of a dozen players, all experienced and all equally determined to make the team, Coach Jamieson developed an exceptionally strong offensive team.

In the City Intermediate League consisting of the Gradette Aces, the Gradette Blues and the Wasps, the Co-eds dropped three out of eight games to the Gradettes and finished in second standing.

Part of the athletic policy of 1937 was to be in the direction of intercollegiate competition for senior teams. Women's Basketball helped to accomplish this aim.

In the series with the University of Saskatchewan at Saskatoon, Alberta won both games and retained the Cecil Race Trophy, emblematic of Western Intercollegiate Basketball competition.

The Profs have improved in their basketball tactics to such an extent that in the annual tilt of "Puffin and Profs vs. Co-eds" the final score was a tie.

The revitalized House League Basketball will guarantee more experienced players for Women's Senior Basketball. The 1937-'38 season should be outstanding in sport activities.

MEN'S TRACK

THE University Men's Track Club enjoyed one of the most successful seasons in several years. Activities commenced with the Inter-faculty track meet on Saturday, October 3rd. In spite of a rather chilly wind, there was a good turnout of both spectators and competitors. Three records were wiped off the slate. In the high jump Ian Cook rolled over the bar at 5' 11", and in the pole vault Tony Stubbs wriggled up and over to clear at 10' 7". Jack Dewis lowered the half mile time to 2:04 4/5.

Ian Cook and Dick Shillington tied for individual honors while the Science men took the faculty honors from Arts, last year's winners.

The Annual W. C. I. A. U. meet was held in Winnipeg, on Saturday, October 17th. Alberta was represented by a strong eight man team which only missed capturing the Cairns' trophy by one point. Alberta outclassed the University of Manitoba in the distance events and also in the infield, but was forced to bow to the gold and brown in the sprints and hurdles. The University of Saskatchewan Men's team fought hard but were not in the running with Manitoba and Alberta. Dame Fortune took a hand in the last event on the programme, the men's relay, and decided the issue in favor of Manitoba. The final score was: Manitoba 58, Alberta 57, Saskatchewan 29. Cliff Willets was individual high scorer with 16 points and was awarded the Riley Trophy.

The Club concluded its season with the Dr. Kerr five mile cross country race. Four students braved the mud, slush and water for the honor of having their name engraved on the cup. Jack Dewis led them home in 32 minutes and 47 seconds.

WOMEN'S TRACK

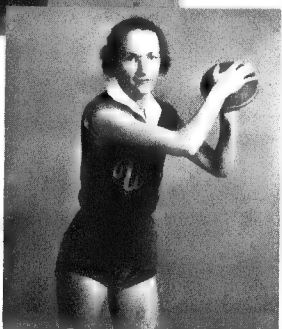

AFTER much strenuous practice on the field and track, the Interfaculty track meet was held on October 3rd. The winners of this meet represented the University at the Intercollegiate track meet which was held on October 17th at Winnipeg. At the Interfaculty meet, Irene Barnett, Joan Hudson, Katherine Rose, Helen Rose and Alice MacDonald were the outstanding performers. Individual honors were won by Joan Hudson.

These winners then underwent a couple of weeks strenuous training under Coach Ernie Williams prior to their departure for Winnipeg.

The Intercollegiate meet was held on one of Winnipeg's cold pre-winter days, but in spite of the cold our athletes showed up very well. Eleanor Honeyman and Helen Ross were again on the Manitoba team, placing first and second in the track events. Our girls placed well in the field events, and although the Manitoba team won the Trophy it was a very exciting meet, and the Alberta girls may well be congratulated.

Altogether Track had a very successful season, and more enthusiasm was shown than in previous years.

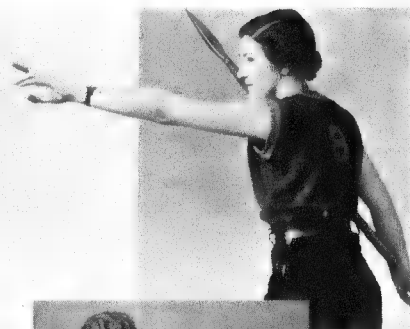

IRENE BARNETT

KATHERINE ROSE

JOAN HUDSON

PEGGY O'MARA

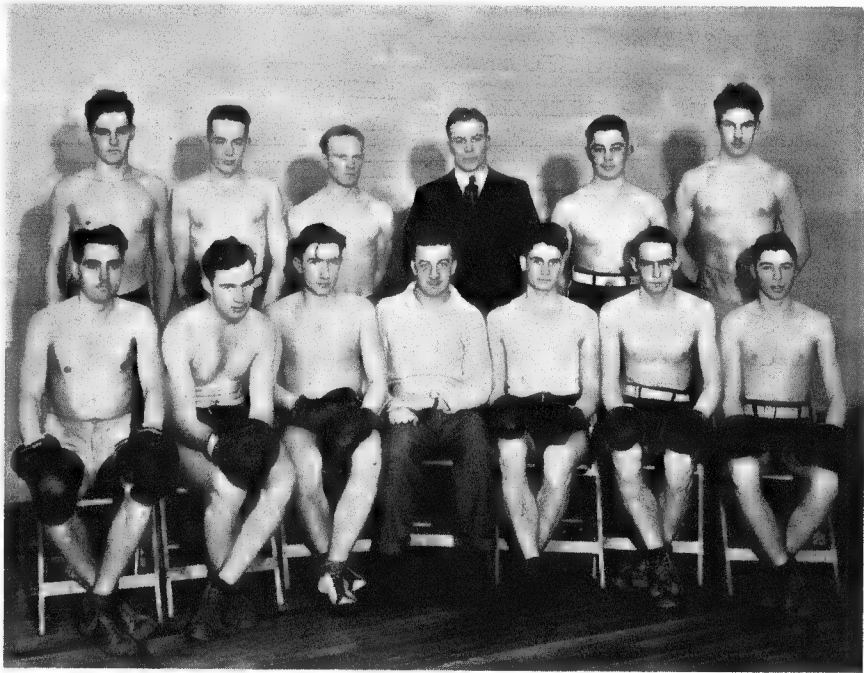

ALICE MACDONALD

Minor Sports

THE INTERCOLLEGIATE TEAM

BOXING AND WRESTLING CLUB

THE Boxing and Wrestling Club under the guidance of President Lou Goodwin, Secretary Bob McCullough and Wrestling Representative Jack Wickett carried on the high tradition of former years and completed the most successful season yet attained. The Interfaculty tournament in the fall was very successful from all angles and gave Boxing Coach Beaumont and Wrestling Coach Knutson plenty of material from which to choose the team. In the spring

five boxers and four wrestlers travelled to compete against the University of Saskatchewan at Saskatoon and succeeded in winning half of the bouts participated in. Athletic Boxing "A"'s went to Sanders Cohen, Bob McCullough, Lou Goodwin, Earl Hawkins, and Denny Hogan. Athletic Wrestling "A"'s went to Don Bark, Wilf Warren, Jack Wickett and Bob Folinsbee. Interfaculty crests were won by Wilf McLean, Neil German, Bev Monkman, Elmer Ryan and Lloyd McLaren.

BOXING AND WRESTLING CLUB

FENCING CLUB

EN Garde! and the Fencing Club entered its first year under the Students' Union. An enthusiastic membership of fifty persons carried the club through a successful term.

Initial and basic instruction was concentrated on in the pre-Christmas term; January, and free play was in full swing.

Potential Captain Bloods were created overnight and there were quiet hummings of the days on the Spanish Main, and a desire for Sabatini to see these gallant swordsmen.

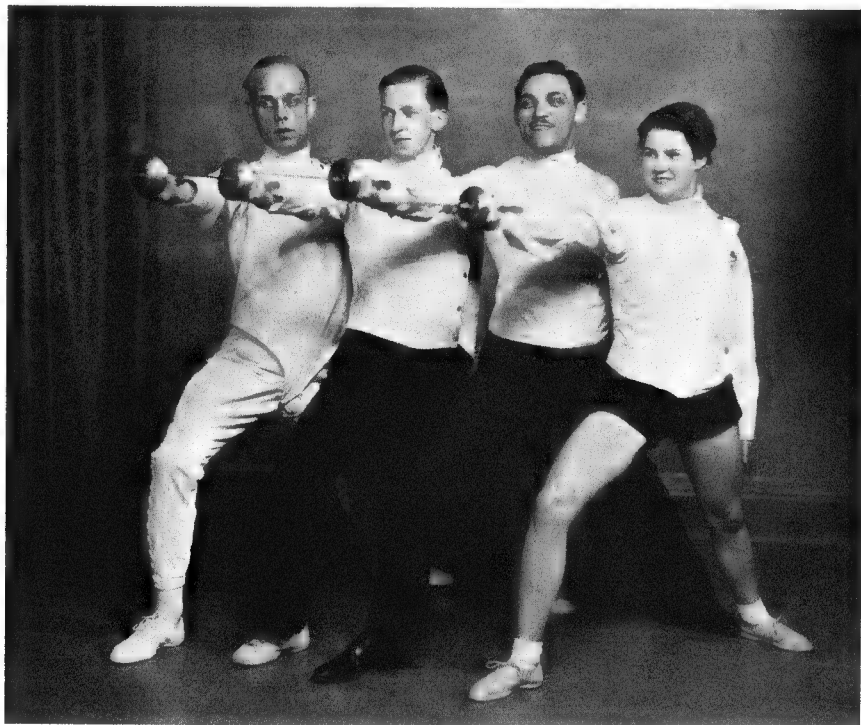

Every person with a foil in his or her hand felt a secret glow of vigor of combat as parries were practised and thrusts were rehearsed.

A very fine slate of officers consisting of Eliot Cohen as president and Vincent Hyland as treasurer and Helen Jenkins as secretary ensured the fine successful management of the club. Coach Wetterburg was retained as "Maitre d'Armes" and under his watchful eye a definite form was developed by the members. A form and grace of style peculiarly well adapted to the foil.

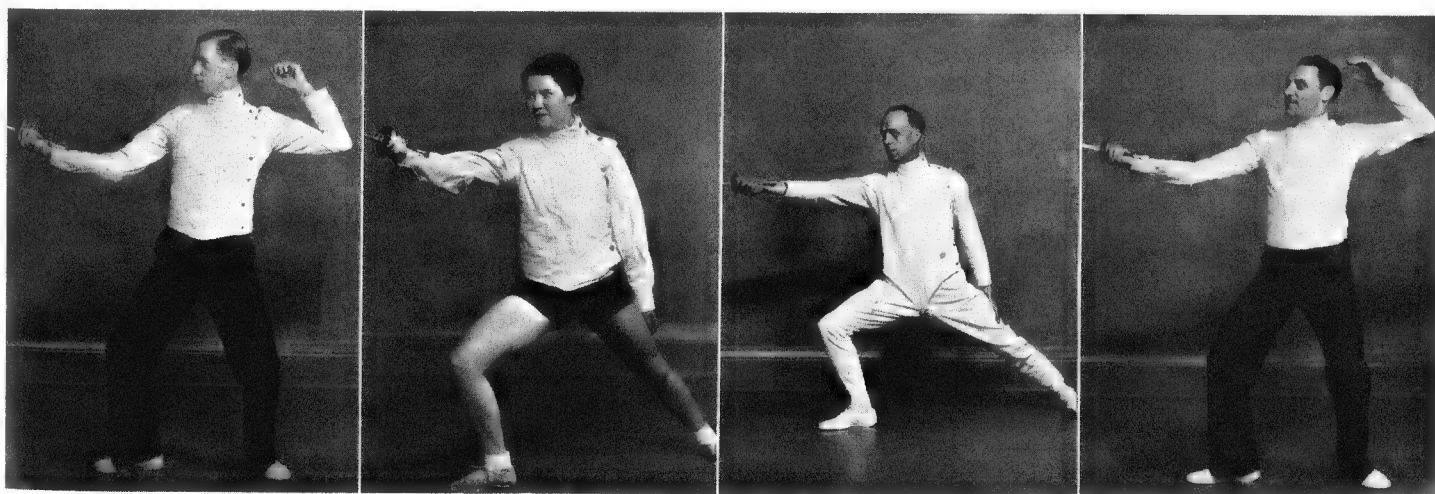

Next year will see a larger and more exciting fencing class as those with a year's experience will be on hand to instruct the new members. It has been suggested that an inter-college tournament be arranged with Saskatchewan and run off the same time as the wrestling and boxing meet.

The purchase of several masks and possible additions to equipment, pledges the club to an active, progressive improvement.

So, if he steals your girl, or she winks at your man say, "Swords at Dawn" and if you are a fencer, well, you can have some fun out of it anyway. We will be seeing you at the Fencing Club in the fall.

PHARM.-DENTS.—WINNERS OF "A" LEAGUE

INTERFACULTY HOCKEY

INTERFACULTY hockey played a prominent part in the sport programme of the past winter season. The teams were whipped into shape during pre-Christmas practices, and immediately following the vacation two schedules got under way, four teams being entered in each league.

In "A" league, competition was keen. The Engineers, by winning their first few games, managed to stay out in front and lead the league throughout the season. They were closely trailed by the strong Pharm-Dents and Arts-Ag-Com-Law; the Meds, last year's champions, occupied the bottom position. The question of eligibility of some Interfaculty players, who had played in a few senior games, was decided, and all but those on the collegiate team were declared eligible. Due to the close competition, a "round robin" series was arranged for the crown. In the semi-finals, the Meds and Engineers played three close games, the latter coming out on top. The Pharm-Dents also defeated the Arts aggregation to enter the finals, where they surprised the large number of fans attending the finals by defeating the Engineers to win the championship.

In "B" league, the Engineers led the others throughout the season; the Arts - Com - Law and Ag-Pharm-Dent teams placed second and third, followed by the Meds in the cellar position. In the semi-finals, the Arts club eliminated the Ag-Pharm-Dents to enter the finals. After losing the first game to the Arts, the Engineers came through to take the "B" crown.

Thus another season of Interfaculty hockey was completed, a successful season of fine hockey and good sportsmanship.

ENGINEERS—WINNERS OF "B" LEAGUE

SWIMMING CLUB

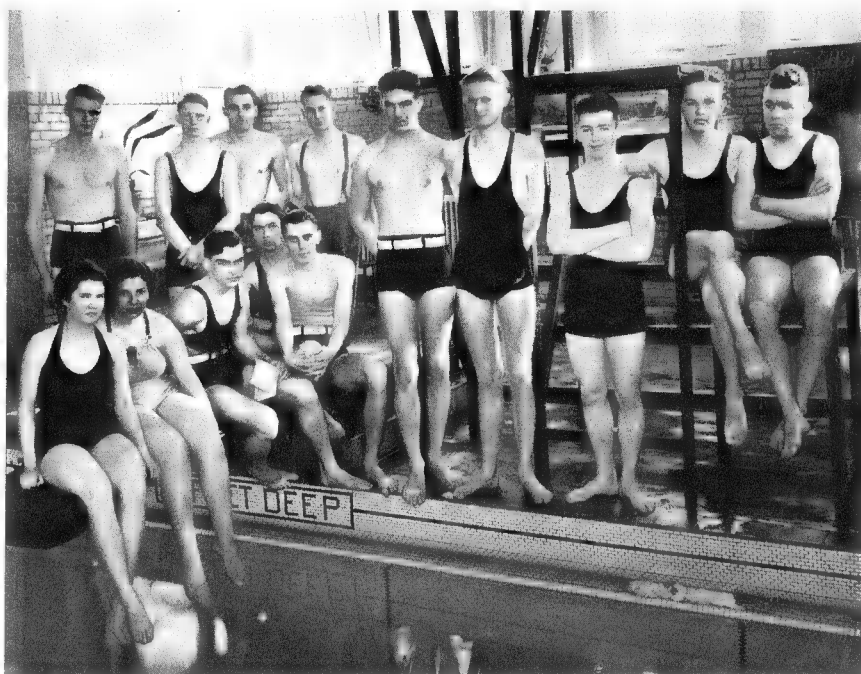

THE Swimming Club, during the 1936-'37 session experienced its most successful term for many years. Presidents Betty Dick and Ken McKenzie were very fortunate in obtaining at the first of the year, the services of a competent coach for their respective clubs. This did more than any single factor to stimulate and maintain the interest which is the foundation on which the success of future clubs will be based.

THE INTERCOLLEGIATE TEAM

Bill Ziegler as coach and general organizer, by his allotment of definite practice and coaching periods succeeded in getting consistently large and enthusiastic turnouts to practices. The results were clearly shown in the two galas held at the Y.W.C.A.

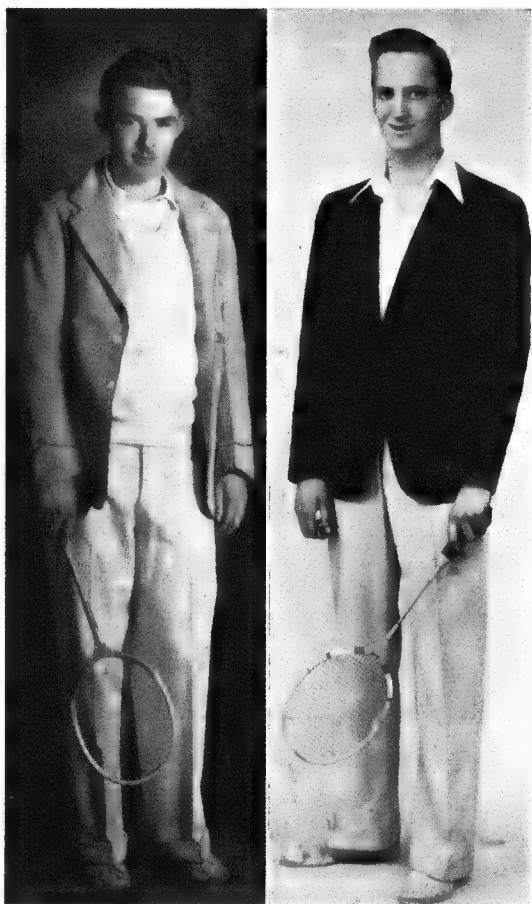

The Interfaculty meet in February proved highly successful, both as a method of choosing the Intervarsity team and from the standpoint of spectators and participants who were wildly enthusiastic as the Science, House Ec., Commerce team splashed its way to victory over the Meds, Arts, Nursing aggregation.

THE SWIMMING CLUB

In the Intervarsity Meet the Alberta men's team consisting of L. Dobson, G. Gibson, L. Greer, B. Keith, P. McCauley, P. Rose, D. Thexton, and G. Wilson lost to both Saskatchewan and Manitoba, Manitoba winning the "Joe Griffiths" trophy. The ladies' team, however, consisting of M. Bow, J. Craig, B. Dick, M. McConkey, H. Perley, R. Poole and K. Graham won a thrilling victory over Saskatchewan, due largely to the outstanding performances given by Mary McConkey and Betty Dick.

A banquet for the visiting teams brought the year's activities to a pleasant close.

RED COOPER

GEORGE CRAWFORD

A team of five was sent to Calgary to represent Varsity at the Provincial Tournament where Doreen Clapperton gained the Provincial title.

The team of Barbara Jarman and Harry Cooper held the Eaton Trophy for mixed doubles successfully for several weeks.

A team was also entered in the City Inter-club League, playing several matches.

THE BADMINTON CLUB

UNDER the leadership of the President, George Crawford, the Badminton Club has completed a very successful year. Among our members are included such well-known players as Doreen Clapperton, Barbara Jarman, Anne Bradda Evans, Harry Cooper and George Crawford.

The Varsity tournament was keenly contested, the honours going to Doreen Clapperton and Harry Cooper.

ANNE EVANS

BARBARA JARMAN

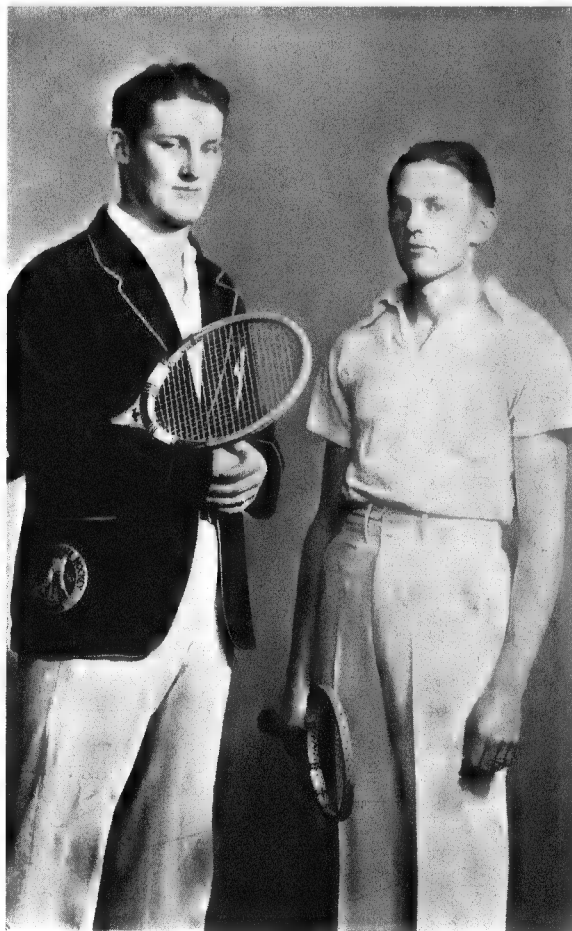

DOREEN CLAPPERTON

THE TENNIS CLUB

AS a result of the fall University tennis tournament, Barbara Jarman, Helen Aikenhead, Tom Forhan and Bill Stark represented Alberta in the annual intercollegiate tennis meet with University of Saskatchewan. The meet was held at Alberta. This was Alberta's fifth straight victory over Saskatchewan and is indicative of the high brand of tennis played here.

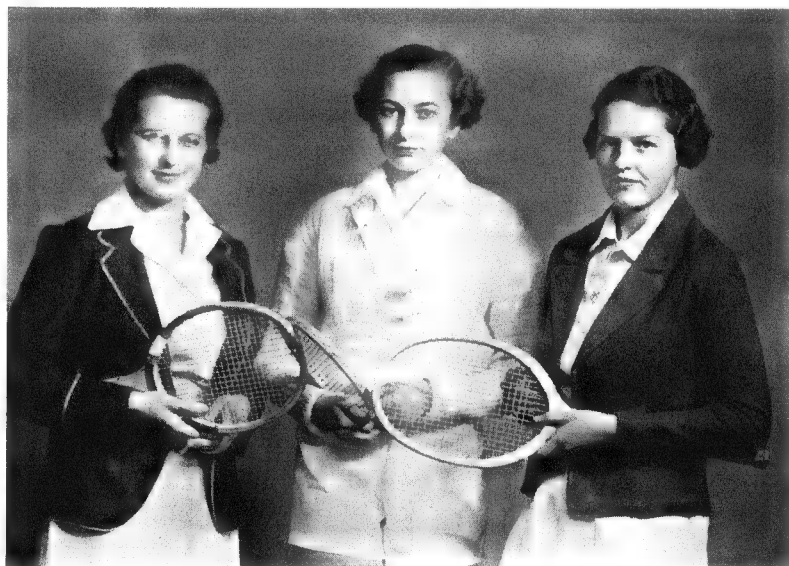

The Priscilla Hammond Memorial Trophy, symbolic of intercollegiate mixed doubles supremacy, was won by Barbara Jarman and Bill Stark.

Plans are being made to include Manitoba in the Western Canada tennis conference and, if completed, the three universities will meet at Saskatoon next fall.

BILL STARK

TOMMY FORHAN

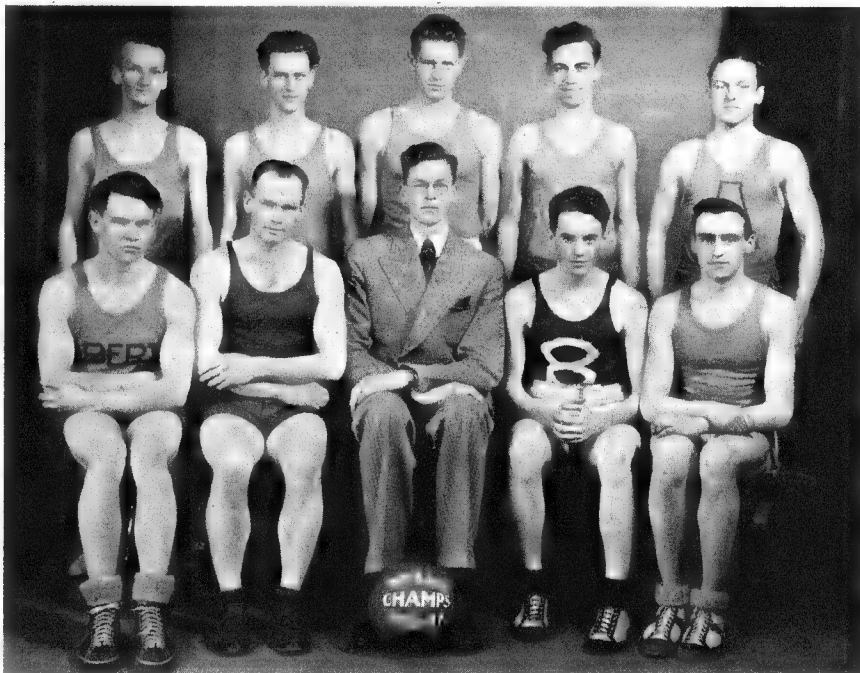

JEAN COGSWELL

BARBARA JARMAN

HELEN AIKENHEAD

The University tennis championships were not completed in the fall due to poor weather, but players who proved themselves to be of good calibre, besides the intercollegiate team, were Guy Morton, Harold Richard, George Murray, Art Torrie and Jean Cogswell.

THE "MED" INTERFAC TEAM

INTERFACULTY BASKETBALL

THIS year Interfaculty Basketball got away to an early start, with the respective teams of each faculty holding workouts and practices by the first week in November. The league started in the middle of the month.

Eight teams—Arts, Ag., Com., Law, Pharm-Dents, Meds, Science and Fresh, were entered. The Fresh took an early lead in the schedule, which they held until they were defeated by the Meds, who then shared top place with them. Both the Arts and the Science entered teams that played good ball and with these crowding a close second the league remained a tight race throughout. How-

ever, a consistently good brand of ball was played by all of the seventy odd men who turned out for the teams.

The league ended in the first week of February, with the Meds and the Fresh tied for first place, each having lost a game. In the playoffs between these two teams, the best two out of three games, the Meds emerged the champions having two of the three games to their credit.

INTERFACULTY RUGBY

INTERFAC Rugby again enjoyed a bang-up season. Four teams, Arts-Ag-Com.-Law, Meds, Engineers and Freshmen made up the league. All the games were run off on schedule, and despite a shortage of equipment at the first of the season (which condition was later well taken care of) the boys really turned out to support their respective faculties.

The finals saw the Arts-Ag-Com-Law and Engineers lock horns for the title and after a bitter struggle, the former team won out 9 to 6, thereby becoming Interfac Rugby Champions for 1936-'37.

ARTS-AG.-COM.-LAW—INTERFACULTY CHAMPIONS

THE SOCCER CLUB

THE Soccer Club under the presidency of Ray Ure, has just completed a very successful year. Because of the late autumn, the soccer ball was kept in action until late November.

The Interfaculty League was composed of three teams, the Arts, Ags., and Med-Dent-Science. The Managers were S. Cosburn, R. Ure and R. Fraser respectively. A six game series was scheduled and played and the Arts team came through unbeaten, although the Ag team pressed closely, and in the final game between Arts and Ags, the outcome was in doubt until almost the last, the Arts winning with a score of 4 to 3.

The last game of the season was played between the Varsity Soccer team and the Edmonton Civics, the Alberta Champions, who won over Varsity by a score of 5 to 2.

The season finished off with the Annual Banquet and election of officers.

THE ARTS TEAM—INTERFACULTY CHAMPIONS

RALPH FISHER

ED BARLOW
COUNCILLOR

ARNOLD WALKER
COUNCILLOR

THE SKI CLUB

VARSAITY went ski minded this year, and for the first time the Varsity Ski Club was under the Students' Union, with Ralph Fisher, president; Joan Hudson, secretary-treasurer; and Bob Hannay, Ed Barlow and Arnold Walker as Ski Captains.

In preparation for the season of spills and thrills, a new slalom hill was cleared. Unfortunately the snow conditions were very unsatisfactory until after Christmas, thus cutting the season short. In spite of this however, the club has completed a very successful season.

Ski films, talks and demonstrations of ski equipment aroused enthusiasm, and with the coming of snow, there were a number of very enjoyable hikes to various cabins, and hardly a day passed without the sight of members on trails and slopes, being coached in stems, christies telemarks and tempos, by those members who had won their proficiency badges.

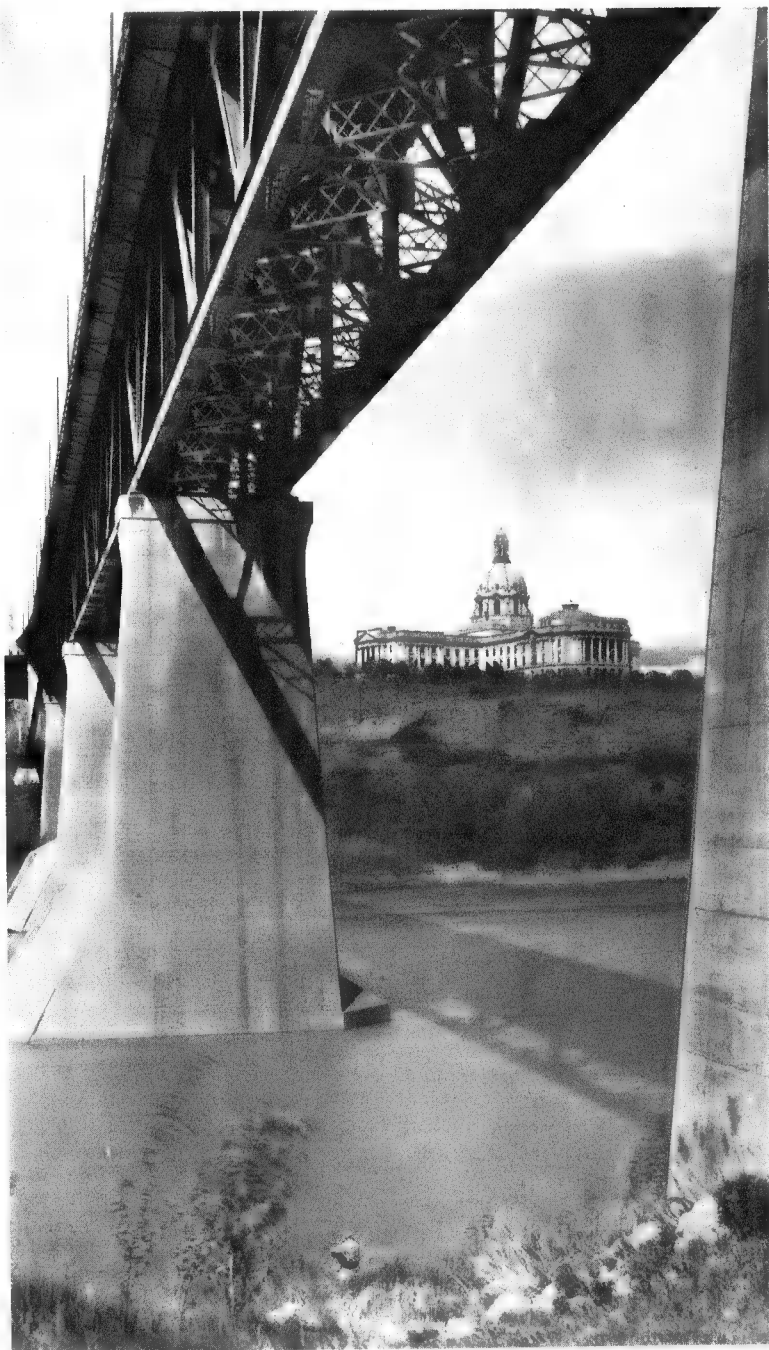

Teams were entered in outside competition, and proved their ability at the Winter Carnival. The City Slalom Championship was won by Stan Ward. Other members placed well in this event, and also in the cross country racing and jumping.

The year was ended with the knowledge that the foundations of a strong Ski Club had been laid, and with an enthusiastic prophecy of continued success in the future.

Military

C. O. T. C.

LT.-COL. E. H. STRICKLAND, A.D.C.
Officer Commanding

UNIVERSITY OF ALB C. O.

THE U. of A. Contingent, C.O.T.C. completed its 22nd annual training season with an enrolment of 204, all ranks. In March, 1936, a record number of candidates passed their written portion of the War Office examinations, and the following figures will show how Alberta compared with other Canadian Universities in this respect:

University of Alberta	94 passed
Queen's University	32 passed
University of Saskatchewan	32 passed
University of Toronto	34 passed
University of Manitoba	29 passed
University of B. C.	21 passed

Of the nine remaining University Contingents in Canada not one succeeded in passing as many as twenty candidates.

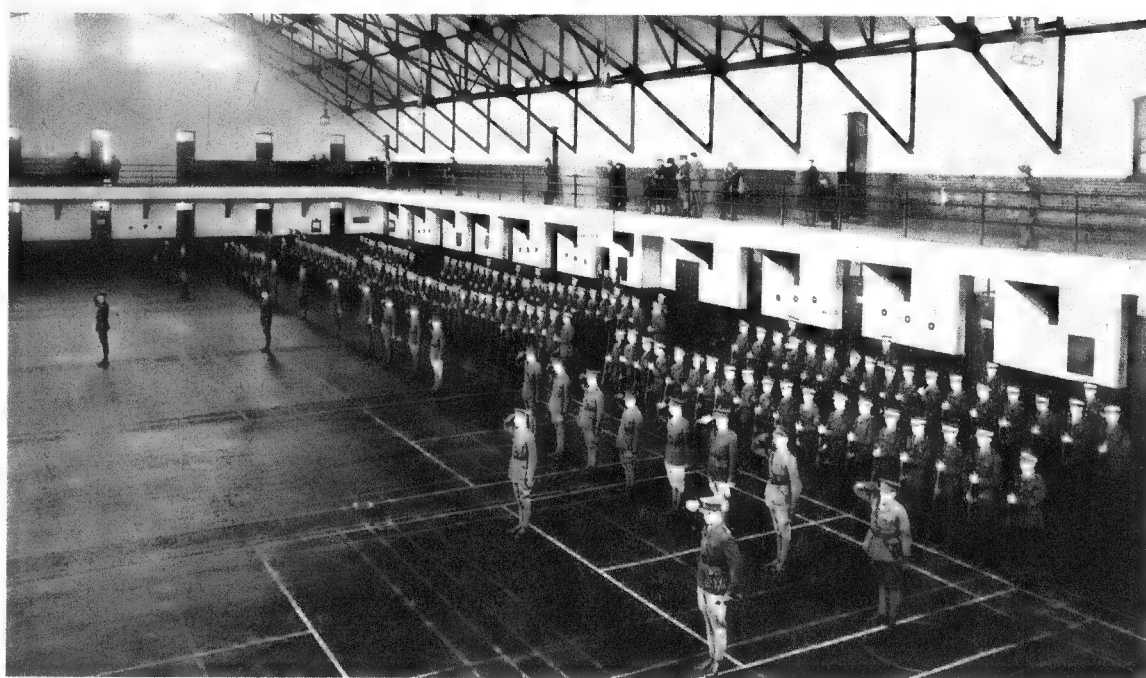

It is hoped that this record will be exceeded in the 1937 examinations. The Board of Examiners who conducted the practical portion of the examinations this year stated that there was a distinct improvement in the training. This was indicated by the gratifying increase in the numbers of candidates who were successful in passing this part of the Certificate examinations.

SUMMARY OF TRAINING

Advantage was taken of exceptionally fine weather at the beginning of the training season to complete much out-of-doors training before winter closed down. Cavalry and Artillery candidates obtained their full complement of mounted parades. Engineers proved that they could transport troops dry-shod across White Mud Creek, Machine Gunners had an opportunity to fire their Vickers Guns on the range at Winterburn, and rifle enthusiasts, also, had a day at the ranges. All candidates had a number of opportunities in which to sport their prowess at squad or company drill on the campus in front of Pembina.

During the year training in Artillery, under the able direction of Lieut. W. S. Ziegler, was offered for the first time to all members of the Unit who were already in possession of an "A" certificate in any other Arm of the Service.

The practical portion of the "A" and "B" Certificate Examinations in all Arms was held on February 13th and 20th. Of the 139 candidates who underwent examination 132 were successful.

"GENERAL SALUTE" AT ANNUAL INSPECTION

ERTA CONTINGENT T. C.

The Unit was inspected by Brigadier D. W. B. Spry, O.B.E., V.D., District Officer Commanding, on February 20th. Several spectators of the ceremony, who are regular attendants at all local Military Inspections, stated that the "Present" at the "General Salute" was the most smartly executed movement which has been seen in the Armouries for many a year.

It is with regret that the members of the Unit learn that, in consequence of his pending retirement from the Service, this is the last year in which Brigadier Spry will conduct the Inspection.

The training season terminated on March 17th, when "B" certificate candidates wrote the 3rd (Organization) paper of the War Office Examinations. Far into the previous night all candidates had wrestled with tactical problems for the edification of their London examiners. It is hoped that a few, at least, of the novel solutions which, without doubt, have been presented will prove to be of lasting value to the Empire.

MAJOR P. S. WARREN
2nd in Command

OTHER UNIT ACTIVITIES

For the first time in its history the Contingent held a Unit dance. For a few days, previously, many cadets displayed an unprecedented interest in obtaining really well-fitting tunics. That Lieut. J. J. Stewart and his Q.M. Staff rose nobly to the occasion can be testified by the exceptionally smart appearance of everyone who was wearing an "issue" uniform in Athabasca Hall on the evening of January 8th. Among our military guests were General W. A. Griesbach, K.C., C.B., C.M.G., D.S.O., V.D., and the Officers Commanding the local Units of the Militia.

Great credit is due to Lieut. R. E. Folinsbee and his Committee who organized what was described by many (including ladies, well versed in such matters) as the "best dance of the season" at the University.

The Officers' Mess dinner was held at the Connaught Armouries on December 4th with Dr. W. A. R. Kerr as the guest of honour.

The Annual Unit Dinner, as in former years, was held after the Inspection in St. Joseph's College. The D. O. C. and examining officers were guests of honour.

BRIGADIER D. W. B. SPRY
O.B.E., V.D., D.O.C., M.D. 13

INSTRUCTORS

One policy of the U. of A. Contingent is that as much of the Instruction, in the various Arms of the Service as is possible, shall be given by members of the Unit. That the results of War Office examinations prove this "amateur" instruction to be the best in Canada is due largely to the never failing assistance which is given to all members of the instructional cadre by Q.M.S.I. J.O.R. Evans, M.C., P.P.C.L.I., who, in addition, carries the major load of instructing the "A" Certificate candidates. In his manifold duties as Permanent Force representative to the Unit he is ably supported by S.I. T. S. E. Whittaker, R.C.S.

INSTRUCTORS

SCHOLARSHIPS

The Unit gratefully acknowledges the Alberta Military Institute Scholarships for the candidates who obtain the highest marks, respectively, in the written portion of the "A" and "B" Certificate examinations. This year they were won as follows:

"B" Certificate (\$50.00)	C.S.M. B. E. Hurdle
"A" Certificate (\$25.00)	Lieut. H. J. Bishop

COMMISSIONS GRANTED IN N.P.A.M. AND OTHER UNITS

During 1936-'37 thirty-one members of the Contingent were granted commissions in Permanent and Non-Permanent Units in the British Empire.

Royal Air Force	1
Permanent Force (Canada)	3
Territorials (England)	2
Non-Permanent Force (Canada)	13
U. of A. C.O.T.C.	12

COURSES ATTENDED BY MEMBERS OF THE UNIT, 1936

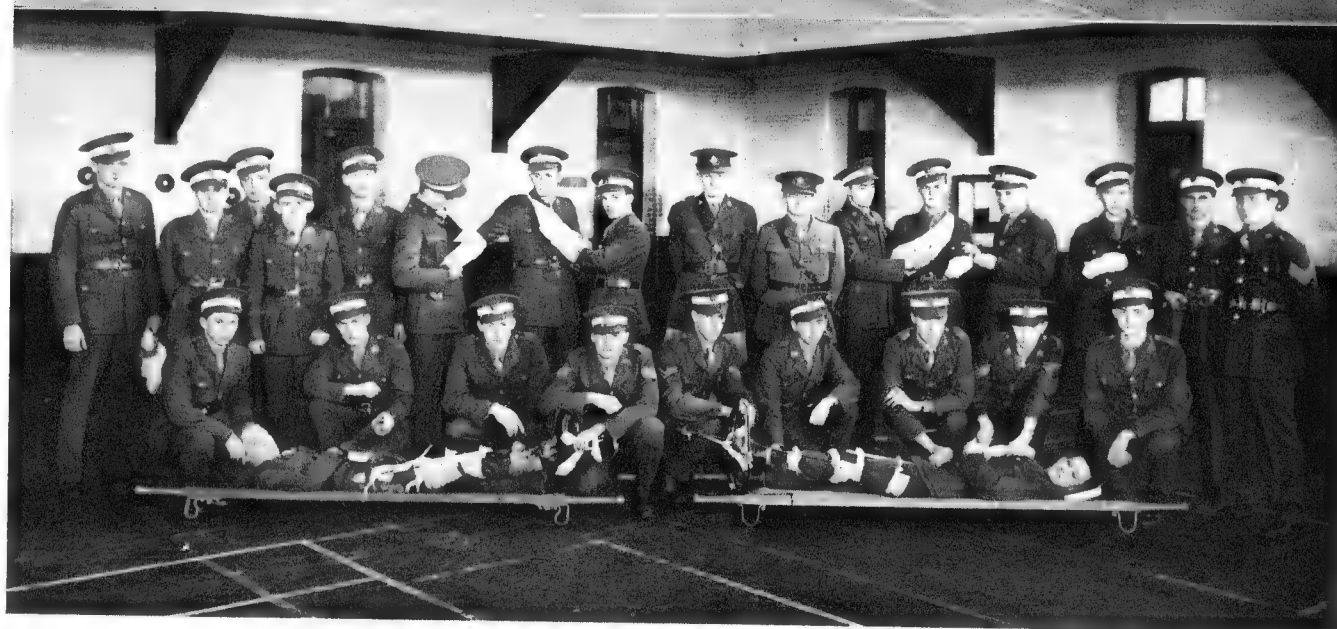

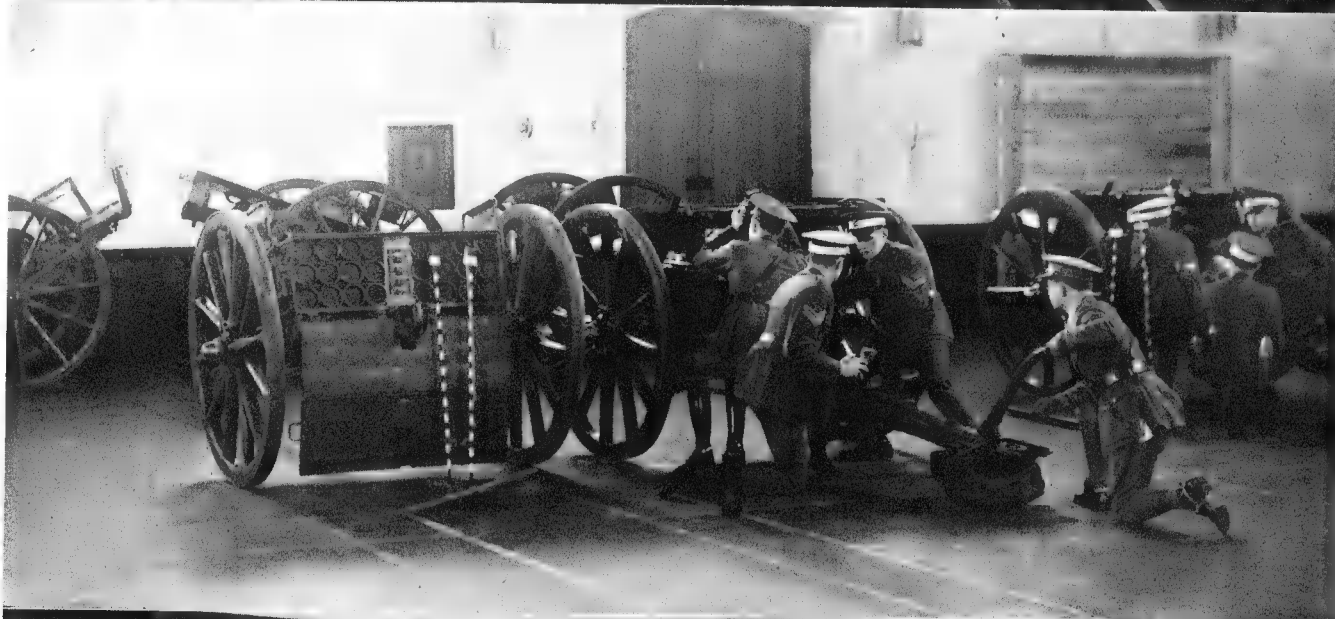

Colonel Qualification	Lt.-Col. E. H. Strickland
Lt.-Colonel Qualification	Major P. S. Warren
m.s.c. (Calgary)	Lt.-Col. E. H. Strickland
Signals (Camp Borden)	Lt. C. F. Pattenson
	C.S.M. J. A. L. Smith
C.S.A.S. (Calgary) A Wing	Lt. H. J. Bishop
B Wing	Lt. J. Constabaris

PRIZES FOR BEST RIFLE SHOTS

The annual prizes awarded by N.D.H.Q. to the two best rifle shots in each company of the contingent were won by the following:

"A" Coy. Sgt. J. Roberts	Sgt. M. D. McCallum.
"B" Coy. Sgt. I. C. Paterson	Cadet J. H. Graham.
"C" Coy. Cadet G. E. Mowat	Cadet H. R. McDonald.
"D" Coy. Cadet B. J. Perry	Cadet W. T. Tolmie.

All ranks are to be congratulated upon the results of the Practical Examinations, held in February, 1937. It is regretted that space will not permit the inclusion of a list of successful candidates. It is to be hoped that all of them will appear next year in the list of those who have obtained their "A" or "B" certificates as a result of having passed, in addition, the written part of the War Office examinations

In Appreciation

AS this last page of copy is written, Evergreen and Gold is rapidly assuming its ultimate form—an achievement made possible entirely by the assistance and untiring efforts of numerous individuals.

- It is with mingled joy and regret that we approach the completion of our undertaking. True, it involved long hours of tedious work, yet it was not without its lighter moments of pleasurable satisfaction. If in proffering the finished volume to you, the students of the University of Alberta, its purpose is in a measure achieved—if it serves to perpetuate the things you will want to remember—our efforts will return us dividends in gratification.
- To the staff itself, the Director owes a great deal. Without the success attained by the Advertising Department, so capably handled by Blimey Hutton and his aides, Evergreen and Gold would have fallen far short of its goal.
- To the Editor, Tom Clarke, and his staff, thanks are due for their efficient handling of the editorial sphere.
- For invaluable assistance in the actual production, I offer my grateful appreciation to the Assistant Director, Bert Swann. My thanks must also go to Margaret Irving for her work in the collection of Campus Snaps; to Dick Bowden for his secretarial aid; to Philip Battum in his capacity of Campus Photographer and to D'Alton Ford for his efficient supervision of the publicity element.
- Words cannot adequately convey the thanks I am bound to express to McDermid Studios, the artists and engravers, and to Commercial Printers. Their unwavering co-operation made possible what at times appeared an insurmountable task. Whether in photography, art or engraving, nothing was too unreasonable or untimely for the willing staff of the former. The friendship of this firm has become one of our most cherished assets.
- And to the staff of Commercial Printers, we are equally indebted. Their invaluable and ever-willing assistance was a vital factor in the success which we have dared to hope for Evergreen and Gold for 1937. We hold in high esteem the friendships made at "Commercial".
- We are indebted to the Brown Brothers Limited, Toronto, for our cover. We thank you for your guiding interest.
- The staff of Evergreen and Gold appreciates the support of Advertisers and their interest in the University of Alberta.
- To everyone, directly or indirectly connected with its production and to the student body at large for its support, Evergreen and Gold says: "Many Thanks."

FREDERIC E. GLOVER,
Director

Good Illustrations

. abound in Evergreen and Gold

Good Illustrations faithfully reproduced are your strongest sales arguments.

McDermid Studios Ltd. has the facilities to supply undivided responsibility of Photography, Art, and Photo Engraving. Each department works hand in hand to produce a Masterful Sales Effort in pictures, whether black and white, or in color.

That which is bought or sold has no value unless it contains that which cannot be bought and sold, an invaluable something which has been termed, the "Priceless Ingredient."

The "Priceless Ingredient" of every product in the market is the Honor and Integrity of him who makes it.

Producing Quality Engravings and maintaining a High Standard, constitutes Good Service. This type of service McDermid Studios Ltd. has maintained for 25 years.

McDERMID STUDIOS LTD.

Artists - Engravers - Photographers

101st Street, Edmonton

THE intelligent University graduate does not consider his education to be complete -- he continues to learn, taking advantage of every facility to increase his knowledge.

So does the progressive printing house craftsman. That is why Commercial's patrons may be assured of every benefit of modern development in the printing industry.

It has been a delight to participate with the Year Book Staff and the Artists and Engravers in the production of this issue of Evergreen and Gold.

FIRST *to Break the News!*

It's human to want to be in the know! And further it's a natural trait to want to get the facts first . . . to be able to tell the other fellow all about it! Most people keep "up to scratch" on all events by daily perusal of the Edmonton Journal for authentic news and comment.

You'll find your personal taste for news gratified. All the news . . . instructive features such as health talks, home improvement plans and suggestions, garden hints and a dozen and one services that can be both profitable and entertaining.

From home or abroad . . . Edmonton Journal's vast news-gathering organization will be FIRST to break the news!

EDMONTON BULLETIN
Since 1880
truly a
great newspaper

"Snap Out" Of the "Dark Age" of Study

Do you realize that 87 per cent of the impressions you receive from textbooks, demonstrations, and other sources of information must be received through the eyes. The efficiency with which your eyes do their work is largely responsible for your standing at the end of your course. On them depends your academic success.

If, from trying to gather impressions through studying in the "Dark Age" of lighting your eyes become strained and tense, their work must naturally be inferior. Quick, clear, easy seeing during study hours is only possible under the soft glareless light of modern illumination from modern lamps.

Any Electrical Dealer will gladly demonstrate lamps
providing the required light for efficient study.

THE EDMONTON CITY DAIRY LTD.
AND THE UNIVERSITY OF ALBERTA

Both were established in 1906-1907

Like the University we too have, during the intervening three decades, steadily grown to tremendous proportions. We too have forged ahead, setting the pace in our own particular industry, adopting and adapting new and better ideas, methods and equipment. Today the E.C.D. is regarded not only as a successful commercial enterprise, but as an organization of prime importance to the life and health and happiness of the people of this city and surrounding country.

Automatic Comfort for Alberta Homes

The truest interpretation of MODERN LIVING is the "all-gas-equipped-home" where clean heat for every purpose is available at the turn of a valve. There's nothing like NATURAL GAS for home heating—cooking—garage heating—refrigeration—incineration. Natural Gas is a 100 per cent Alberta Fuel, made available by Alberta's two Natural Gas Utilities at one of the lowest rates on the North American continent.

CALGARY

The Best Investment of All

TO the graduate and the undergraduate alike the question of guarding against the possible loss to parents or others of a considerable investment represented by a college education, should death or disability step into the picture, is assuming an ever-increasing importance.

In providing for this emergency by means of a life insurance policy the student or graduate is not only starting a savings account but he is laying the foundation for a progressive and extremely useful insurance programme to function for him in later years as a business or professional asset, a guaranteed income for his dependents, or a retirement income for himself.

Built upon a graduated scale, the annual or semi-annual deposits required are so arranged that the plan may be commenced on a modest scale or a more or less specific programme, arranged immediately.

This is worth considering and a message to our Calgary or Edmonton office will receive the Company's immediate attention. Let us tell you about this best investment of all.

The LITTLE GIANT

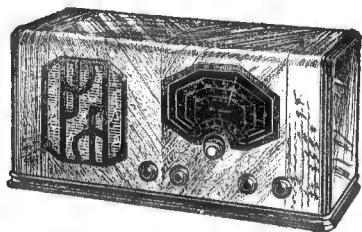

This Westinghouse radio is a paradox of performance—It looks so small but sounds so big!

Here's the ideal set for University students and others who require a compact, easily-installed radio—at the same time demanding dependable and efficient service.

Razor-edge selectivity . . . amazing beauty and fullness of tone . . . positive short wave reception—big radio performance never before offered in a five tube model.

Ask your Westinghouse dealer to demonstrate this Mantel Model 512A. Easy Terms make it easy to own and the total cost is only

\$75.00.

*THE
STUDENTS'
RENDEZVOUS*

An Appreciation

To the merchants and professional men who are represented in *Evergreen and Gold* 1937, must go a great deal of the credit for this volume.

Without the wholehearted co-operation of these men it would be impossible for *Evergreen and Gold* to maintain its enviable position in the front rank of college year books. These men are the leaders in the community and we are indeed fortunate to have them manifest an interest in the University of Alberta and in student activity.

May I express the appreciation of the entire student body for their enthusiastic support in making *Evergreen and Gold* 1937 possible, and at the same time bespeak for them our continued and increasing patronage.
